Sec. 2. Yea and Nay Vote Required on Final Passage

of Bill: Applies to Resolution, When. Upon the final passage of a bill, or of a resolution if the same requires the same consideration as a bill, the vote shall be by yeas and nays, and this rule shall not be suspended.

Sec. 3. Machine Vote, When. If a machine vote is called for, or if the presiding officer is in doubt, he shall cause the result to be obtained by means of the electric roll call system; and only the totals shall be printed in journal.

Sec. 4. Record Vote, Member May Demand. Any member may call for a record vote upon any question (Const. Art. III, Sec. 11), and upon declaration of the yeas and nays by the members, the record thereof shall be made and taken upon the electric roll call system, unless the Legislature by a majority vote decides that a roll call shall be taken.

Sec. 5. For Yeas and Nays and Call of House. Vote on Electric System: Limitation on Time to Vote. In taking the yeas and nays and upon call of the Legislature, the members shall register their vote upon the electric roll call system. When the yeas and nays are taken upon any question in the manner heretofore indicated, no member shall be permitted to vote after the decision is announced from the chair.

Sec. 6. When More Than Majority Vote Necessary, Electric System Used. In all instances where the vote, necessary to adopt a motion or other proposition, is other than that of a majority voting upon the question, the presiding officer shall, unless the Legislature by unanimous vote decides otherwise, cause the result thereof to be obtained by means of the electric roll call system. In such case, no member shall be permitted to vote after the yeas have been announced by the Clerk. Votes not registered on the electric roll call system or given to the Clerk by voice shall not be counted for or against a proposition.

Proceedings under the call may be suspended at any time by a majority vote of the members present, and when so suspended shall not again be ordered on the proposition pending, except by a majority vote of the members present and voting thereon. When the Legislature has been under call for fifteen minutes, and if all absentees were to vote on one side of the question, and if their combined vote would be insufficient to change the result of the vote, the President shall declare the call raised.

RULE 10

Sec. 3. Withdrawal or Modification of Motions. After a motion has been stated by the presiding officer, or read by the Clerk, it shall be deemed in possession of the Legislature, but may be withdrawn or modified by the mover at any time before a decision, amendment, or ordering of the yeas and nays, except a motion to reconsider, which shall not be withdrawn without leave.

Sec. 4. Motions Received When Questions Under Debate: Precedence. When a question is under debate no motion shall be received but:

a. To adjourn.
b. To lay on the table.
c. For the previous question.
d. To postpone to a certain time.
e. To commit.
f. To amend.
g. To postpone indefinitely.

Such motions shall have precedence in the order in which they are arranged; except that motions to postpone indefinitely and amend do not yield to each other. No motion to postpone to a certain time, to commit or to postpone indefinitely being decided, shall again be allowed on the same day at the same stage of the bill or proposition.

Sec. 5. Motion to Strike Enacting Clause; Effect, Precedence. A motion to strike the enacting clause of a bill, if carried, is equivalent to rejection of the bill. Such motion shall not have precedence over a motion to amend nor over a motion to postpone indefinitely.

The Speaker of the Legislature

Honorable Speaker:

In accordance with Section 4, Article IV, of the Constitution of the State of Nebraska, I have the honor to herewith deliver to you, under seal, what purports to be the original abstract of votes cast in the ninety-three counties of the State at the general election held on November 7th, 1950, for Representatives in Congress from each of the four Congressional Districts of Nebraska, Officers of the Executive Departments of State, Railway Commissioner, Chief Justice of the Supreme Court, State Superintendent of Public Instruction, Members of the Unicameral Legislature, Regents of the State University (Districts Five and Six), Directors of Public Power and Reclamation Districts; the votes cast on the measure proposed by the 1949 Session of the Legislature to amend Sections 6 and 7, Article III, of the Constitution of Nebraska, and on the measures as proposed by the referendum ordered by petition of the people on the rejection of Legislative Bills No. 399 and 401, Sixty-first Session of the Legislature of the State of Nebraska.

In compliance with Sections 32-923 and 32-928 of the Revised Statutes of Nebraska for 1943, I also deliver to you a correct tabulation of the votes cast as compiled from the duplicate abstracts certified to me by the ninety-three county canvassing boards in Nebraska. According to this Constitutional provision these abstracts are to be opened and published in the presence of a majority, and the person having the highest number of votes for his respective office shall be declared duly elected.

Respectfully submitted,

Hugo F. Srb,
Clerk of the Legislature,
State House.

Dear Mr. Srb:

In compliance with Resolution No. 24 of the 1947 session of the Legislature, this report is made by the Board of Control, of work completed, underway, and planned for future action, using funds provided by the Institutional Building Levy. 	TOTALS	$1,760,473.23	$2,211,898.90	$3,972,372.13

All projects now underway should be completed by late 1952.

To December 1, 1950 the Board of Control's share of collections from the Institutional Building Levy has totaled $3,405,387.73. Expenditures during the same period have been $1,760,473.23 (as heretofore outlined), having a cash balance of $1,644,914.50. It is estimated that very nearly the same balance will exist at the end of the present biennium if construction progresses as scheduled. By the end of the 1951-1953 biennium the total collections from the fund to the Board of Control can be conservatively estimated at $6,600,000.00. Total cost of all construction, either completed or now underway, is estimated at $3,972,373.00. Considering only completed and present projects, there will remain at the end of the biennium an unencumbered balance of approximately $2,627,627.00.

A tentative 10 year construction program was submitted by the Board of Control to you at the beginning of the 1947 session of the legislature. This report can be found on page 481 of the 1949 Legislative Journal. Several projects in this outline have been selected by the Board for construction using anticipated collections of the next biennium.

Projects under consideration include:

1. Boys' Dormitory, Beatrice State Home
2. Medical and Surgical Bldg., Hastings State Hospital
3. Cannery and Slaughter House, State Penitentiary
4. School Building, Home for Children
5. Boys' Quarters, Boys' Training School
6. Superintendents Residence, Hastings State Hospital
7. Staff Quarters, Norfolk State Hospital
8. School and Gymnasium, Mens Reformatory
9. Dormitory, State Penitentiary

Planning is underway on a number of these projects at this time.

It has been planned that the proposed projects listed be constructed with funds collected by the end of the 1951-1953 biennium and at the same time have available approximately $700,000.00 from the fund to cover anticipated costs of repairs remodeling, & Equipment at the various institutions.

Working Drawings have been prepared for only one of the proposed projects. However, complete plans are available for work completed or in progress.

With its allotment under the Institutional Building Levy the Board of Control is constructing buildings with a capacity for nearly 800 new patients in the mental hospitals and has added 140 beds at Beatrice State Home.

These additions will probably not eliminate entirely the pressure of waiting lists. Because of conditions the Board has also felt it imperative that worn out and inadequate services such as laundry, water supply, heat, light, power, refrigeration, food storage and food service be replaced or added to. Every necessary step possible to keep the services in adequate and safe operating condition is being, or has been, taken. The state by ample appropriations for repairs and by the Institutional Building Levy has made it possible for the Board of Control to enter a time of emergency with physical plants of institutions far better prepared than a few years ago. Much remains to be done when possible.

INAUGURAL MESSAGE OF GOVERNOR

To the Members of the Sixty-second Session of the
Legislature of Nebraska

January 4, 1951

Mr. President, Mr. Speaker, and Members of the Senate;
Mr. Chief Justice and Associate Justices of the Supreme Court;
My fellow Constitutional Officers, Ladies and Gentlemen:

We meet in a difficult hour. Guns of war are blazing and at this very moment American boys are dying upon the battlefields of Korea.

The world is divided into two great warring camps and slowly, but surely, all the peoples of the world are being forced into one or the other of these camps.

The aims of world communism, centered in Russia, are crystal clear and easily available to anyone who is willing to scrutinize communistic literature. World revolution and the destruction of religion and democracy are the objectives of those who take their orders from the Kremlin. Nothing is sacred. All individuals and institutions which stand in the way are to be ruthlessly eliminated. Subversion, deceit and sabotage are favorite weapons of these emissaries of destruction.

Communism as an economic doctrine or practice is as old as mankind. It need not be feared. In fact, its successes have been so limited as to be practically negligible. But the revolutionary doctrines of Marx and Engels, augmented by the devilish devices and practices of the masters of Russia, require that we and free men everywhere, be ready for any eventuality if we are to survive. Never before has it been truer that the price of liberty is eternal vigilance.

Why we have been so slow to sense the danger which confronts us, why we committed the blunders that have brought about the loss of nearly all of Asia, why we have coddled Communists at home and abroad, we need not consider here today. Some of us, for years, have been raising our voices against what we thought were fatal mistakes in our foreign policy, particularly as it applied to the far east. But the urgency of present events has carried us past the stage of debate. Our troops are committed upon foreign soil, our President has declared a national emergency. No one knows where or when the next blow will fall, but all expect it and dread it. Our job now, as representatives of a great commonwealth and as citizens, is to cooperate fully in the common effort to preserve everything which we hold dear. Large scale mobilization is underway. All-out war could come to our shores at any time, bringing with it for America its first taste of modern warfare, the destructiveness of bombs, both conventional and atomic, and the horrors of bacteriological attack.

We face a skillful, a determined, a competent and powerful enemy. Victory for the ideals cherished by free men will not come easily. It will not come at all unless we are prepared to defend ourselves, unless we are willing to make the sacrifices which mobilization requires. America must reach her maximum strength in production. She must renew her faith in herself and in the idealism which led to her greatness. Ours must be total preparation. We must bear in mind constantly that in the long run the battle against Communism will not be won on the field of combat, but rather in the minds of men.

Personally, I face the future with confidence. Evil forces many times before have threatened the peace and safety of the world. Always when the danger has become evident the forces of decency have rallied and smashed those who would throw mankind back into the darkness of the past. America has the resources, spiritual as well as material, to permit her to meet successfully any challenge which lies ahead. Our greatest danger lies in the failure to see the situation clearly, in confusion and in the refusal to understand that we cannot gain security and simultaneously enjoy all of the gadgets that characterize American life. We must recognize and make the sacrifices which are necessary.

CIVILIAN DEFENSE

Nebraskans can take a considerable measure of pride in the fact that America's civilian defense plans were developed largely under the direction of the late Russell J. Hopley and that other Nebraskans have played a prominent part in their formulation.

Responsibility for civilian defense has been vested in the states and while the federal government will offer leadership and will finance certain features of the program, the states must assume direction. The real work must, of necessity, be done at the local level. If we are to protect ourselves and be prepared to continue the vital activities of civilians, without which a war could not be won, we must have the utmost cooperation at all levels of government, local, state and national.

We are extremely fortunate in Nebraska in that in our state there would appear to be no targets of the highest priority. Omaha, and possibly Lincoln, might be bombed and preparation must be made accordingly. The greatest danger, not alone in Nebraska, but throughout the nation, would appear to be from sabotage carried on by native communists. Great danger lies too in the introduction of germ warfare, which the Russians might undertake by floating deadly germs into our country by the medium of paper balloons. In the last war, the Japanese floated thousands of these balloons into America by taking advantage of the prevailing winds.

Whether Nebraska is bombed or not, and God grant that we may be spared such disaster, we must be organized to extend relief to our neighbors in such great cities as Chicago, Kansas City, St. Louis, Minneapolis, St. Paul, Denver, and possibly others, through organized mobile support units. We must be prepared to receive victims of the bombings into our state for hospitalization.

Should the ravages of modern warfare reach America, survival will depend upon our ability to continue the production of war material and necessities of our economy in spite of enemy action. The only way this can be done is through carefully worked out civil defense procedures based upon the experiences of the English and the other people who have undergone the trials of bombing. No one knows when war may come, but on that day it will be too late to concern ourselves with civilian defense. Consequently, we simply must plan and drill and redrill in advance and that means immediately. It means, too, that we will have to spend money for the equipment and the personnel necessary to carry out the program.

Acting under the authority of LB 523, enacted at the last session of the Legislature, I have established the Nebraska Advisory

Defense Committee, appointed a Vice Chairman thereof, and the committee has in turn designated an Executive Director. For several months, in addition to his other duties, State Treasurer, Ed Gillette, has assumed the responsibility for supervision of civilian defense preparation in our state. He has attended a number of meetings and has organized civilian defense to the extent that this has been possible. Mr. Gillette has been named as Executive Director of the Nebraska Advisory Defense Committee. In addition to his activities, we have sent several governmental specialists to meetings and training schools to receive instruction in their fields.

In my judgment, a successful civilian defense program in Nebraska requires the full-time services of an Executive Director with a small staff. Accordingly, I have had prepared for introduction today, and request passage by your body, of an appropriation in the amount of $100,000 to initiate civilian defense activities in Nebraska immediately. I request consideration of this measure and urge you to expedite its passage.

I can assure you that it will be our purpose to utilize every instrument of government presently existing before we add anything under this civilian defense program. I can assure you, too, that every dollar appropriated will be handled with the utmost care. In this, a period of emergency, it is more important than ever that we receive the maximum for every dollar which is expended. I point with pride to our record in handling the $500,000 which you made available to the administration in connection with Operation Snowbound. Due to the speed with which Major General Lewis Pick proceeded and by careful management, we were able to return to the Treasury $327,716.14. I point out to you, too, that of the $50,000 appropriated by the last session for storm emergencies, not one penny has been expended to date.

I do not know what the eventual cost of our state civilian defense program will be. I believe, however, that the request which I have made will be ample to permit us to function effectively until toward the end of your session when we see our needs more clearly.

To strengthen our Nebraska civilian defense program, I am submitting for your consideration a bill incorporating the ideas of the Council of State Governments.

STATE GUARD

While we have received no notification, it appears entirely likely that our National Guard may be called to action in the next few months. When it leaves our borders, there will be no organized force ready to function in event of any of the many situations which would require it. Should one of our cities be bombed, the first and probably the most difficult job would be to maintain law and order. It appears likely that this could not be done without the employment of a State Guard. Such a catastrophe might befall us within thirty minutes after our National Guard units leave. Then, again, it would be too late to start talking about the organization of a militia. The need would be at hand. Accordingly, I suggest that you amend Section 55-201 Revised Statutes of Nebraska to authorize the establishment of a Nebraska State Guard immediately.

It is our present plan to organize five battalions of 250 men each. It is my understanding that the federal government will provide arms and uniforms for such bodies. I think that it is imperative that you act upon this suggestion as promptly as possible.

INSTITUTIONAL BUILDING

In the firm belief that America cannot gird herself in the current emergency without the employment of all her manpower and material for mobilization purposes, and, also, to help fight the vicious inflationary spiral, which is consuming us all, I recommend to your Honorable Body that it freeze all public institution contruction not already under way or not necessary to further the mobilization program.

I announced to the press sometime ago that I would make this suggestion for your consideration, and I am pleased to report to you that the response of the state agencies affected has been excellent. They all want to cooperate fully. The University of Nebraska has three projects, a Meat Laboratory, a Dairy Barn, and an Insectary. each of which it feels can contribute to mobilization and war should it eventuate. Upon examination you may be in agreement and in view of the fact that the responsibility rests in your hands, I am referring its desire to proceed with this construction to you for such action as you deem advisable.

Our state has made tremendous advances in the improvement of its physical plants through the forward-looking 1.1 mill levy building program enacted by the Sixtieth session of the Legislature. In my judgment, the best interests of our state require that the program be continued. Therefore, I recommend to you that while the present emergency in America requires that building be suspended, you permit the levy to continue in effect during that period and the funds to accumulate to the credit of the institutions involved. Such a course will permit the orderly continuation of the program at the earliest possible time. I have prepared for introduction a bill incorporating my ideas in this matter.

It is my intention to discuss some matters of state government in greater detail in connection with my budget message. It is also my intention to direct messages upon separate subjects to you at different times during the session as they may be appropriate.

I extend to you a hearty welcome as you undertake the responsibilities which are yours. I join with you in pride in the good government which has long characterized Nebraska and which we have today. No state enjoys cleaner, more efficient and economical government than does Nebraska. I pledge to you my utmost cooperation, and I know I may do so also for the other Constitutional Officers, with whom I am pleased to be associated. We want to be of assistance to you in every way possible, to see that the people of our state receive not only the finest governmental service possible but also the maximum benefit for every dollar of tax money expended.

REPORT OF THE CAPITOL COMMISSION ON THE COMPLETION OF THE CAPITOL MURALS

1. Under authority conferred by Section 72-713 Reissue Revised Statutes of Nebraska 1943, Governor Val E. Peterson, during the current year (1950) appointed a Capitol Commission consisting of the following:

    Mr. James E. Lawrence of Lincoln, Nebraska, President, Nebraska State Historical Society

    Dr. R. G. Gustavson of Lincoln, Nebraska, Chancellor, University of Nebraska

    Mr. Eugene Kingman of Omaha, Nebraska, Director, Joslyn Memorial Art Museum

    Mrs. Paul Gallagher of Omaha, Nebraska, Member, Society of Liberal Arts

    Mr. Dwight Kirsch of Lincoln, Nebraska, Member, Nebraska Art Association

    Col. Harry F. Cunningham of Lincoln, Nebraska, Member, American Institute of Architects

    Mrs. Edna Basten Donald of Grand Island, Nebraska

    Mrs. Henry E. Ley of Wayne, Nebraska

    Mr. Samuel C. Waugh of Lincoln, Nebraska, Member at large

2. The Statute Sections 72-713, 72-714 and 72-715, copy attached as Annex 1, directs that the Commission "shall adopt rules and

regulations for procedure and cause plans, working drawings, and specifications to be prepared for completing the panels and murals", etc. The Commission was empowered to "employ and contract with consultants in the field of mural decorations". No such consultants were required other than those, as hereinafter indicated, who gave their advice without compensation.

3. The members of the Capitol Commission unanimously recommend that the mural decorations as hereinafter detailed be completed substantially as designed and intended by the Capitol's distinguished Architect, the late Bertram Grosvenor Goodhue, his associates and collaborators.

4. The principal murals concerned, in order to complete properly and appropriately the decorative aspects of the Capitol building, are as follows:

   a. Three (3) in the North Vestibule;
   b. Six (6) in the Foyer;
   c. Four (4) in the Rotunda;
   d. Eight (8) in the Memorial Chamber in the Tower.

5. A sub-committee consisting of Col. Harry F. Cunningham, Mr. Eugene Kingman, and Mr. Dwight Kirsch was appointed to establish the size of the murals; to estimate the costs of painting, mounting, and finishing the murals. The detail of the sizes and costs of the murals involved is attached as Annex 2. The following are the number of murals and the aggregate cost for each location.

a.	North Vestibule (3)	$18,200.00
b.	Foyer (6)	50,000.00
c.	Rotunda (4)	39,000.00
d.	Memorial Chamber (8)	24,700.00

The total estimate, including maximum allowance for sketches, is $131,900.00.

6. The original symbolic and decorative program developed for the capitol by the late Hartley Burr Alexander included provision for mural decorations on the four ceiling vaults of the Law Library, the two end panels and the window reveals. There is some question as to whether the Law Library, due to the final construction and the use thereof, should be decorated as originally intended.

The Commission recommends that the Library work be delayed for future study at least until the work has been completed on the main floor and the Memorial Chamber. The detailed estimate of the cost of the Law Library decoration is attached as Annex 3. The Law Library estimate, including allowance for sketches, is $125,752.

7. The Commission desires to record its appreciation of the extraordinary degree of cooperation and mutual understanding which was developed, during the conception and construction of the building by and between Bertram Grosvenor Goodhue, the Architect; Lee Lawrie, the Sculptor; Hartley Burr Alexander, the author of the Symbolic Scheme and the inscriptions; and Hildreth Meiere, the designer of the floor treatments and the ceiling vaults in the public spaces.

For the perpetuation and consumation of their ideas and for the guidance of future Commissions, there is attached hereto, as Annex 4, the "Synopsis of Decorations and Inscriptions—Section II" as originally prepared by Hartley Burr Alexander. The Alexander Synopsis was written prior to the completion of the Capitol and certain structural changes were subsequently made. It will be necessary for future studies to take into consideration these changes and a revised or edited edition of the synopsis be written.

8. The Commission voted unanimously, and so recommends, that the original proposal for the panels in the Memorial Chamber in the Tower be changed from themes of war to those of that universal peace and good will which we Americans and our free democracy seek and hope to attain. The theme of the Gifts of the Spirit of Man as originally planned by Dr. Alexander for the Library might well be considered as the governing thought in the decoration of the Memorial Chamber.

9. The Commission realizes there are many methods for selecting the artists who would execute the intended murals, providing the appropriation is made and the work directed. It is suggested a plan be followed comparable to the method employed for the selection of the architect for the Capitol building, the details of such plan to be developed by a Capitol Mural Commission. For the convenience of the Legislature there is attached hereto as Annex 5, a draft of a proposed statute authorizing the appointment of a permanent Capitol Mural Commission, assuming the appropriation and authorization for the work are forthcoming.

10. The Commission desires to express its appreciation of helpful counsel and data furnished its Sub-Committee on Murals by the National Association of Mural Painters, all without cost to the Commission or the State.

11. The appropriation of $10,000 for the expense of the present Commission has been unused. The members of the Commission felt it would be unwise to expend funds for working drawings, or to employ consultants until it was made certain that appropriation for the work contemplated would be forthcoming. A reappropriation of $5,000 is recommended for the use of a permanent Capitol Mural Commission. The remaining $5,000 could be given consideration at the time the appropriation for the major work is being studied.

12. The Commission authorizes its Chairman to file this report with the Clerk of the Legislature and with a copy to be sent to Governor Peterson.

The filing of the report completes the assignment as provided by statute. The members of the Commission will supplement this report with any detailed information requested and that the members may be competent to furnish.

Respectfully submitted,

(Signed) Samuel C. Waugh, Chairman

Dated at Lincoln, Nebraska this 20th day of December, 1950.

A copy of a bill establishing the Capitol Commission was attached.

II

Corrective Legislation

The office of Revisor of Statutes serves as a clearing house for reporting of defects in existing laws. Corrective legislation is then drafted by this office to cure the defects. Thirty-five bills of

this nature have been prepared and are submitted for consideration.

III

Topical Revision

One of the duties of the office of Revisor of Statutes is to prepare for submission to the Legislature, from time to time. a rewriting of entire chapters of the statutes. In 1949, a rewriting of Chapter 79 on Schools and School Districts was submitted and approved by the Legislature. This year a rewriting of Chapter 32 on Elections is submitted. In the rewriting of chapters of the statutes in this manner, substantial changes in substance are not made, but it is sought to restate in clearer language and better order existing statutes.

IV

Reissue of Volume III

Another of the duties of the Revisor of Statutes is to arrange and correlate for publication replacements of permanent volumes of the statutes. In 1948, pursuant to action of the 1947 Legislature, Volume II of the Revised Statutes, 1943, was reissued and brought up-to-date. In 1950, pursuant to action of the 1949 Legislature, Volume IV of the Revised Statutes, 1943, received similar treatment. This year a bill is being submitted to reissue Volume III of the Revised Statutes, 1943. This is a part of the long-range program of continuous statutory revision.

Bills have been prepared by the office of Revisor of Statutes to carry out each of the matters set forth in this report and will be delivered to the Chairman of the Committee to which this report is referred.

Respectfully submitted,

(Signed) Walter D. James

Attorney General's Report

January 11, 1951

To the President, the Speaker,
and Members of the Legislature

Gentlemen:

For your information, the Governor has requested that I transmit to you the attached copy of a memorandum opinion from the Attorney General of Nebraska pertaining to the time when members of the Board of Control assume office.

Respectfully submitted,

(Signed) Marie Krumwiede
Secretary to the Governor

December 28, 1950

Honorable Val Peterson
Governor of the State of Nebraska
State Capitol

Dear Sir:

Your inquiry concerns the commencement of the terms of the members of the Board of Control.

Prior to the 1920 Constitutional amendments, Section 19 of Article V of the Constitution read in part as follows:

> "The governor shall, prior to the adjournment of the thirty-third session of the legislature, nominate and, with the consent of two-thirds of the members of the Senate in Executive Session, appoint three electors of the state, not more than two of whom shall belong to the same political party and no two

> of whom shall reside at the time of their appointment in the same congressional district, as members of a board to be known as a Board of Commissioners of State Institutions. Said members shall hold office as designated by the Governor for two, four and six years respectively. * * * The powers possessed by the Governor and Board of Public Lands and Buildings with reference to the management and control of the institutions herein named shall, on July 1, 1913, cease to exist in the Governor and the Board of Public Lands and Buildings and shall become vested in a Board of Commissioners of State Institutions, and the said Board is on July 1, 1913, and without further process of law, authorized and directed to assume and exercise all the powers heretofore vested in or exercised by the Governor or Board of Public Lands and Buildings * * * ."

This same language appeared in the Revised Statutes of 1913 and in one form or another in the 1922, 1929 and up to the 1943 Revision when the July 1, 1913 portion was deleted.

When the 1920 amendment was submitted to the voters the Address to the People contained the following:

> "Amended Section 19 makes no substantial change, but it has been re-written for the purpose of eliminating unnecessary details and verbiage."

The pertinent part of Section 19, Article IV, now reads:

> "* * * The present members shall hold office until their successors are appointed, and one member shall be appointed in the month of January, 1921, and one every two years thereafter. * * *."

Section 83-102, R.R.S. 1943, now provides as follows:

> "Prior to the twentieth day of each session of the Legislature, the Governor shall nominate an elector of the state to be a member of the Board of Control. The Legislature shall not consider a nomination on the same day that it is received unless the nomination is received on the last Legislative day of the session."

As we view the law as it stands today, the only indication of the beginning of a term is found in the constitutional provision above quoted and the above statute.

It seems clear that the new term of a member of the Board of Control begins when he is appointed in January, his appointment is confirmed by the Legislature and he qualifies by filing the required approved bond. This may operate to shorten the term of present appointees, but this is not prohibited in law; in fact precedent is found in the adoption of Article XX, Constitution of the United States, changing the beginning of the term of the President and Vice President of the United States from March 4th to January 20th, thereby shortening the term of the then incumbent.

Yours very truly,

Clarence S. Beck
Attorney General

REPORT—Committee, University Building

Your special committee appointed by the Legislature submits the following report and recommendation:

We have carefully examined the grounds, the old buildings, the plans, and the firm bids taken by the Board of Regents of the University of Nebraska.

We recommend the University of Nebraska's request for the construction of two of the three projects be granted, namely a meat laboratory and a dairy production laboratory. The committee believes the contents of the bill with amendments will handle the insectary building and that this request be denied at this time. (Signed) O. H. Person, Otto Kotouc, Sr., Dwight W. Burney, Otto H. Liebers and Ed Hoyt, Chairman

MOTION—L. B. 37

Mr. President: Since the committee studying the University's request has been able to complete its study, I move that we consider L. B. 37 on General File, instead of holding the bill for Special Order. (Signed) Arthur Carmody

The motion prevailed.

BUDGET MESSAGE

OF

VAL PETERSON, GOVERNOR

Delivered to the Sixty-second Session of the Legislature

of Nebraska, January 22, 1951

MR. PRESIDENT, MR. SPEAKER AND MEMBERS OF THE SENATE:

Two years ago when I presented my Budget Message to you, I was greatly concerned with the decline taking place in farm commodity prices in Nebraska and the gradual leveling off of our economy. Many of us were beginning to think about farm surpluses and to wonder if our economy was about to "go through the wringer" as it did back in the 1920's. Many thoughtful persons were looking toward the economic storm cellar.

Such concern continued until one typical June Sunday in 1950 when Moscow-inspired North Koreans moved into South Korea in an act of aggression which the United Nations and the United States determined to resist. Since then, prices have risen, some by leaps and bounds. Today, America is in a period of partial mobilization and ahead lies the possibility of war and a full-blown war economy.

So once again we are dealing in shrunken dollars—little dollars which so far as we are able to see today will become smaller from week to week and month to month as the preparation for war increases in tempo. We are faced with the stark reality that today's dollars simply will not buy the goods and services of those preceding World War II, and as we diminish the purchasing power of the dollar it takes more and more dollars to render the services which the people of our state demand.

None of us can read the future. Possibly America's drive to strengthen herself militarily and productively may cause the Communistic world to hesitate in its drive for World domination. If so, we may have a period of peace and for this all rational men will pray.

But, in spite of the troubled times in which we find ourselves, we want to go forward wherever possible. We want to create for ourselves and our children the advantages which lead to better living. We want to develop our resources to the maximum. We want to make progress as rapidly as possible consistent with orderly and sound fiscal considerations.

We must bear in mind, however, that the first responsibility resting upon us is that of meeting the costs of building a strong America. Our country is equal to the task that faces us but will not accomplish it without burdensome taxation and tremendous sacrifices by us all. The price of survival will be a constantly lowering standard of living as we divert our productivity from civilian goods to those of war.

We must do without many things individually and as states and upon all levels of government. Recognizing this, I have asked Your Honorable Body to freeze state institutional building effective immediately, and I recommend to you that we undertake no new activities requiring the expenditure of manpower and material, except those that advance the mobilization effort, until the foreign situation has clarified.

We must not delude ourselves into believing that we can build America's military strength to the demanded level and at the same time carry on life as usual. We must choose, and our choice must be the right one.

While the total over-all budget recommended to you is slightly under the appropriation of two years ago, the significant fact is the increase of 12.9 per cent in the amount required from the General Fund. Of the $6,031,564.10 which this per cent of increase represents, $3,000,000.00 is recommended for the University of Nebraska, and $2,782,237.29 for State Assistance.

General Fund requirements for the Assistance Department jump from $16,007,262.71 to $18,789,500.00. Little discretion is afforded in determining this figure, as the problem is largely one of making as accurate an estimate as possible of the total number of cases to be served during the coming biennium and multiplying it by the estimated average monthly payment. While the totals involved are tremendous and account for 25 cents of every dollar which will be spent by the state, yet no one would be inclined to argue that the average monthly payments are unreasonably high. In fact, there are many who feel that they are too low.

Of the big-spending agencies from the General Fund, the Board of Control is the lone exception to the demand for increased appropriations. It, in fact, is requesting $927,271.95 or 9 per cent less money from the General Fund than was appropriated to the Board in 1949. This cut of nearly one million dollars has been an important factor in keeping the General Fund appropriation at the level which will be required. The Board certainly is to be commended in view of the mounting inflationary pressures. Noteworthy, too, is the fact that the number of persons for whom it must provide is steadily increasing, as are the facilities which it must equip and maintain. New buildings, fine as they are, require additional personnel and increased costs.

SCHOOL RETIREMENT SYSTEM

In submitting my 1947 budget, I called the attention of the Legislature to the difference in the funds required to maintain the Nebraska School Retirement System on a pay-as-you-go basis as compared to an actuarially sound basis. I asked the Legislature to establish the policy to be pursued. That session appropriated on a pay-as-you-go basis as did the Sixty-first Session, and apparently those actions fixed the Legislative policy.

I am informed by the Director of the School Retirement System that to place the system on a funded basis for the coming biennium, $3,376,868.00 would be needed. If you were to appropriate to pay all of the benefits for the next biennium to everyone who has reached the maximum period of service and attained the age of 65, an amount of $939,717.00 would be needed. However, the actuary has found that teachers, due to the employment conditions presently existing, are retiring on the average some five years later than the date upon which they qualify, and on this basis, he calculates that $637,537.00 would be required during the coming biennium.

Teachers have not been retiring at the time of their qualification date and, therefore, we acquired a surplus in the fund during the 1947-49 biennium of $295,000.00. It is estimated that during the 1949-51 biennium, we will acquire a surplus of $565,000.00 for a total of $860,000.00. Because I feel it is important that the state pile up reserves against the day when the employment situation may be reversed and teachers will be taking advantage of their retirement privileges as they become eligible, I am recommending that you appropriate for the coming biennium the same sum as that for the last biennium, $826,200.00.

According to the actuary, if all members were to retire at the earliest possible date, the state right now has an obligation of $22,221,428.61. To me, prudence requires we do not attempt to handle this problem strictly on a pay-as-you-go basis but that we must accumulate reserves in order that the state may never default on this obligation. In my judgment, the proper procedure would be to put this fund on an actuarially sound basis.

UNIVERSITY OF NEBRASKA

The University of Nebraska has requested that its General Fund appropriation be increased from the $8,000,000.00 made available to it in the present biennium to $13,582,639.12 for the coming biennium. This would be an increase of 70 per cent. I am recommending that you increase its General Fund appropriation to $11,000,000.00 or 37.5 per cent.

This increase should permit the University, among other things, to increase the salaries of all personnel, professional, skilled and unskilled labor, connected with the University and place those salaries on a competitive basis with similar institutions in our area. To have a great University we must maintain a strong faculty and this requires the payment of salaries on a level equal to that paid by our neighbors.

The allocation of the appropriated money is the responsibility of the Board of Regents and the University authorities. This is, of course, the way it should be. When Your Honorable Body votes appropriations, the Board of Regents assumes full control over the allocation of those funds to the various colleges and schools in the University. This has always been the practice in Nebraska. It should be continued.

Because of adverse criticism, some Legislators have been considering the advisability of ear-marking University funds for specific purposes. This should not be done. To do so would mean that the Legislature would assume the authority now vested in the Board of Regents and if the policy were extended, it would mean eventually that the Legislature and not the Regents would be running the institution and the school would be injected into politics.

In the past two bienniums, appropriations from the General Fund to the University increased 67 per cent. It is also the beneficiary of over $1,000,000.00 a year of building levy funds and during the ten-year period for which the building fund was established, there will accrue to the University approximately $11,000,000.00 for building purposes. This constitutes the greatest endowment in its history and should result in much good, not alone for the University but for all of the people of our great state.

If you adopt my recommendation, the total increase to the University from the General Fund will be 130 per cent over 1945-47. When you add to the $11,000,000.00 recommended the $2,000,000.00 which will be received from the building fund, it will receive $13,000,000.00 during the next biennium and this represents an increase in state appropriations of 171 per cent over the 1945-47 biennium. Certainly these increases should permit the University to render fine service to Nebraska.

The effect that the emergency and possible war may have on the University enrollment and costs may be clearer by the time you are ready to enact the appropriation bill. I trust that such may be the case and that you will make adjustments accordingly.

I am pleased to inform you that the Council of State Governments is undertaking a study of higher education in America and by the time the next session of the Legislature convenes, or in the event Your Body should meet in special session in 1952, you should have available much valuable information regarding comparative University costs in the United States. This information should help you determine the financial support which Nebraska should provide to secure the type of University it desires.

HIGHWAY SCALES

During the 1949 session, Senator Dwight Burney introduced a bill providing for a number of highway scales to be utilized by the Safety Patrol in enforcing weight limitations on vehicles operating over our highways. The purpose, of course, was to prevent overloading with its consequent destruction of our highways. The Legislature, believing that private scales could be utilized, eventually determined to provide funds for just two scales.

Experience has shown that owners of scales are very reluctant to permit the Safety Patrol to utilize them for purposes of law enforcement, feeling that to do so places them in the position of incurring the displeasure of potential customers.

Accordingly, I want to recommend strongly as a means of protecting the tremendous investment which our taxpayers have made in highways in this state, your approval of a bill which has been or will be introduced in this session by Senator Burney, providing for the construction of ten more scales. We simply must protect our highways against those who do not respect the law.

PERSONNEL PROBLEMS

Salaries

I am certain that the great majority of those in the employ of the people of the State of Nebraska are hard-working, efficient, worthy public servants. Those who do not measure up to their responsibilities should be eliminated. But, no one should make the error of condemning all who serve the state simply because of the deficiencies of a few.

Let me mention to you some individuals who have rendered outstanding service to Nebraska. The first is a janitor in the Governor's suite, Roy Merrill, who is one of the finest public servants in this entire country.

Roy went to work for the State of Nebraska in 1920, and 26 of his 30 years of employment have been spent taking care of the Governor's office, the offices of the Tax Commissioner and the Secretary of State. With a sense of pride in his custodianship of what are undoubtedly the finest public offices in America, Roy has in that entire period of time taken meticulous care of every feature and detail therein.

Most of the time he has worked a split shift, reporting for work at 6:00 in the morning and remaining until 10:00 a.m., returning in the afternoon at 4:00 and staying on the job until it is done, normally at about 10:00 p.m. He started work at the rate of $85.00 per month, was raised to $100.00 per month and was cut during the depression years to $85.00. Presently, he is paid $175.00. For 20 of those years he worked without either a vacation or sick leave, and in 30 years he has had two weeks of leave.

Today he is a man of 64 years and, obviously, he has had little opportunity during a lifetime of employment with the state, to acquire a competence upon which to retire. I challenge anyone to find a finer record than Roy Merrill's. I have never seen in him the slightest deviation from strict attention to duty and have never heard the slightest criticism of him by those for whom he has worked. Rather, in fact, they have been lavish in their praise.

Certainly, with the broadening of the Federal Social Security Act to include state employees, the State of Nebraska owes to Roy Merrill, and the many others who have served the state well, the benefits of this retirement program.

In 1926, Nebraska employed L. M. (Roy) Gates in its Bureau of Plant Industry and he eventually became Chief of the Bureau and State Entomologist,. a position which he held until he resigned in 1948. Roy's salary reached $180.00, but in 1932 it was reduced to $125.00, following which it eventually was raised to $275.00. He was known over a large part of America as an outstandingly competent man in his field and his resignation was a distinct loss to Nebraska. He resigned in order that he might develop a small acreage in southeastern Nebraska and to provide a refuge for himself against approaching old age.

Then there is the case of W. L. Klatt, who became Chief of the Division of Noxious Weeds, in the Department of Agriculture, after the creation of this position by the 1937 Legislature. He went to work at $170.00 per month, eventually reached the figure of $275.00, which is $3,300.00 per year. He was nationally recognized for his ability, and in 1947 resigned to accept a position with the Department of Agriculture in South Dakota at the rate of $4,500.00 per year, in a state with one-half the agricultural income of Nebraska. He is now in private employment after organizing the weed program in South Dakota. Nebraska could not afford to lose the services of either Mr. Gates or Mr. Klatt, but did because of low wage rates and the lack of a retirement system.

Nebraska has now become a very important state in the field of insurance. Insurance companies in Omaha and in Lincoln give employment to thousands of our people and bring large sums of money into our state for investment. It is a business which requires the highest type of supervision by competent individuals. This has been particularly true in recent years when the federal government has been threatening to encroach upon the responsibility of the state for supervision.

The Director of the Insurance Department is paid the sum of $5,000.00 a year to head the activities of the Nebraska department, and I am happy that just in recent days I have prevailed upon him to remain in his position at least for a few months. I assume I had no right, in terms of his welfare, to request him to stay, but I did.

The Director of Health in Nebraska is paid $5,500.00 per year, when it is a matter of common knowledge that small-town practitioners are enjoying incomes much more substantial, and that is referring to the matter with restraint.

There is no need for recounting all of the salary inequities that exist in the state government and exist, I believe, to the detriment of public service. They are clear to you. There should be an adjustment, and the responsibility for that adjustment rests squarely upon your shoulders. Remember that the laborer is worthy of his hire and that cheap help is usually the least efficient and consequently the most expensive.

Job Classification

Two years ago I called the attention of the Legislature to the need for classifying all positions in the state employ and for the establishment of salaries in keeping with that classification and the current wage scales. The members of that session did not accept my recommendation. I assume they did not, either because to meet it meant general salary increases, or because they were hopeful that a possible leveling of our economy might eliminate the necessity for doing so.

I think that my statement on this subject was clear and to the point. Accordingly I am going to quote from it with the hope that this session will give the suggestion the consideration which the welfare of our state demands it have.

"Democracy cannot function efficiently and effectively with inferior tools any more than any other organization. To do so is to handicap it severely and to jeopardize the public interest.

"New positions and salaries have been created in Nebraska without sufficient thought to fitting them into a correct pattern, in order that they might fall into the proper relationship with other positions demanding equivalent training, experience and similar responsibilities. When jobs have been created in bad times, low salaries have been established. Jobs created in high times have been better paid.

"Today it is practically impossible to get men with proper background and competency to accept state employment. . .If this were just true in one instance in the state administration, it would not be serious, but for two years (now four) I have found that it has been consistently the case. I do not care to embarrass any of the good people presently serving or I could name positions, dates and persons.

"In my judgment, all positions in the state service should be classified according to training, experience, responsibility and other pertinent considerations, and remuneration established accordingly.

"The fact is that there is today little, if any, reason for folks to accept state jobs and many simply will not. The federal government and Lincoln business firms offer employment at salaries much higher than those the state is able to pay. Further, contrary to the federal government and general business practice, the state affords no retirement benefits.

"It is no answer to the problem to advance the argument, 'If they don't like working for the state, let them quit.' Services rendered by the state government have been established upon the demand of the people, and they cannot be performed efficiently, effectively, and economically unless trained, competent, and reasonably satisfied individuals can be employed. I would suggest that Your Honorable Body create a committee to study this problem and to consider the advisability of making such a classification as I have proposed."

Classification of state employment, as I have suggested, is not an unduly difficult task, and the services of competent persons are available. The Tax Commissioner has information concerning the problem, which can be placed at the disposal of the appropriate committee and interested members.

Retirement

Private industry generally, and the federal government, have found it desirable to create employee retirement systems. Workers today consider retirement benefits as one of the most important factors of their employment. There is a universal desire for security in old age and such a program is particularly valuable to persons who fall in the relatively low-income brackets, such as do most of those who are employed by the state.

I know of no good reason why our state employees should not be included under a retirement program, and many why they should. Therefore, I recommend the enactment by Your Honorable Body of legislation placing all state employees, legislative, executive and judicial not now covered by a retirement plan, under the Old-Age and Survivors Insurance program of the Federal Social Security Administration. It is estimated that the cost to cover state employees would be less than $200,000.00 per year. Employees of county and municipal government also should be included.

HIGHWAYS

Naturally, I was greatly disappointed when the highway program, which was enacted by the 1949 session of the Legislature, was not sustained at the polls last November. I thought that we had created a well-balanced road program under which the needs of rural people, city people and all of those who travel upon our state highways were well filled. By a very narrow, but nevertheless decisive, margin the people failed to sustain the program.

The problem we set out to meet still exists, and in my judgment we will face a crisis in our state highway system sometime in the next 5 to 8 years. Possibly it may come sooner. Nevertheless, we do not have sufficient funds to prevent the disintegration of our roads. The obsolescence and deterioration factors will cause disintegration more rapidly than our limited funds can overcome. However, the people have spoken. It is our duty to accept the verdict gracefully and graciously and to do our very best with the means at hand. That is our aim. That we have been doing and will continue to do.

I have pledged my complete cooperation with any and all persons and organizations who have a constructive program through which to meet this important Nebraska problem. My door is always open and I refer you, as evidence of my willingness to consider any constructive proposal, to the comments which I made before the Sixty-first Session, of which many of you were members, on April 19, 1949, as recorded beginning on page 1061 of the Legislative Journal for that session.

MURAL COMMISSION

Under the term of L.B. 26, Sixty-first Session, I appointed the following persons as members of a Mural Commission: Dwight Kirsch, Mrs. Paul Gallagher, Harry Cunningham, Mrs. Henry Ley, Samuel C. Waugh, and Mrs. Edna Donald. Ex-officio members are James Lawrence, President, Nebraska State Historical Society; R. G. Gustavson, Chancellor of the University of Nebraska; and Eugene Kingman, Superintendent of Joslyn Memorial.

The members have done an excellent job and I call to your attention the fact that they did not spend a dime of the money you appropriated to them, but rather absorbed the costs themselves as a public service. I commend them for their service and for their public spirit.

They have made a special report directly to you and have recommended the appropriation of $141,000.00 to begin the program of painting murals in the prominent positions in the rotunda and north vestibule, which were designed for murals. It is my understanding that the committee wanted to spread the work over a period of years and it is a matter of great personal regret to me that, in view of the present world situation, I do not feel justified in recommending an appropriation for this work at this time. Should the world situation clarify before you adjourn, to the point that it would be advisable to undertake this work, I certainly hope that you will see fit to make provision for it.

STATE BUILDING COMMISSION

Under the terms of L.B. 546, Sixty-first Session, I appointed the following people to the Building Commission: W. C. Fraser, Gus Prestegaard and Thomas Wake. Ex-officio members of this committee are the Governor and the State Engineer.

The commission has held innumerable meetings and has attempted to find some means of stopping the leaks in the terrace promenade and other parts of the building. The terrace has been a source of annoyance nearly from the time the Capitol was completed. The commission was very hesitant about committing public funds in the attempt to stop these leaks without a reasonable guarantee of success. To date, it has been unable to secure such a guarantee, and has restricted its activities to an experiment covering approximately one-fifth of the terrace surface. If this experiment is successful, the commission would like to go ahead next spring and complete the remainder of the terrace by the same process, and we have included in the budget of the Capitol Custodian a sum of money to permit the commission to do this and to repair other portions of the building. I am pleased to report that this commission, too, has refused to accept expense money from the state.

MILFORD TRADE SCHOOL

Two years ago I called your attention to the necessity for careful consideration of the future operation of the Milford Trade School. I noted that it had been supported largely by fees paid by students who were attending it under the GI Program, that the tuition charged the GI's was higher than that which could reasonably be expected from other students and that when they had cleared the institution, the state would undoubtedly be called upon to make larger appropriations to offset the declining student fee income. That situation is now present and is reflected in the recommendation of a larger sum to be appropriated from the General Fund for the Trade School. I renew my recommendation for a survey of this institution and suggest if it is to be continued, there would seem to be no reason why the tuition rate charged students learning the trades should be any higher than those enrolled in the liberal arts and other collegiate schools.

We have long enjoyed good government in Nebraska. We enjoy it today. In no other state do the taxpayers get as much value received for the dollar spent. Frugality, economy and efficiency mark our state government. I know that those of you who have served in the Legislature in past sessions join with me in this pride. You are, in a large measure, responsible for the good government which is ours. Those of you who are beginning your service as Legislators will, I am sure, join with us in searching for every way possible to improve our state institutions and governmental procedures. Progress should constantly be our aim. I could point out to you innumerable instances of efficiency and economy in our government. In fact they are the general rule rather than the exception and it might be well if occasionally we paid attention to that fact, rather than placing great emphasis upon the occasional deficiencies which come to our attention.

Let me mention two instances of good government in which those of us in positions of responsibility take pride. In the eight years from January 1, 1943, to December 20, 1950, the Division of Motor

Fuels in the Department of Agriculture has collected gasoline taxes in the amount of $135,441,212.43, at a cost to the state of slightly less than one-half of 1 per cent. One hundred per cent collections were effected and we doubt that any state in America can match this low cost. I call your attention, also, to the fact that our Cigarette Tax Division, which was organized on June 1, 1947, has since that time collected $13,253,887.11, at a cost of about one-half of 1 per cent, the figure being .00503 per cent.

I might add that the cost of administration of the division which makes gasoline tax refunds to farmers has been reduced from 5% in 1941 to 2% in 1950, which means a very substantial saving to farmers using refund fuel.

Deferred construction and improvements and the little dollars with which we are now dealing, have caused taxes to rise sharply in the last four years. Of course, speaking strictly of state taxes, it is true that we have required during that time the lowest percentage of the total income of our citizens for the support of state government ever required in a similar period.

We cannot deny that taxes have risen, but we can take great satisfaction in the fact that on a comparative basis, Nebraska's state taxes have remained extremely modest. In two of the past four fiscal years we have had the lowest per capita state taxes in America, in one we ranked third and in one, sixth. It would appear that our ranking in the current fiscal year will place Nebraska in the lower one-half dozen states in the union in per capita state taxes.

Let us remember, too, that each year has seen a growth in government at the demand of the citizens, and, obviously, as government is expanded, the costs of government are going to rise.

I have suggested many times in the past that there are only two effective ways of cutting the costs of government: One, by increased efficiency, and for that we must always strive; secondly, and this is the only way in which material cuts can be made in the cost of government, we must either stop adding to government or subtract, or both.

Personally, I hope that Your Honorable Body will scrutinize every activity of our government, evaluating it in terms of these questions: Why was this activity set up? Does it serve an essential purpose? Is it a legitimate activity on the part of our state? Can it be done better through some other means? If the answers are not satisfactory, eliminate it and eliminate it regardless of the pressure groups, and you may be certain that when you attempt to eliminate anything in the state government you are going to be subject to merciless pressure. Don't assume for a minute that because something is existing that it needs to continue to exist. It may have out-lived its usefulness. It may never have been a proper undertaking on the part of government.

Let's get over the idea in Nebraska that the way to cut the cost of government is to refuse to pay decent salaries to those in positions of responsibility. Rather, let's bear in mind that the real areas in which to save money are those which I charted by my questions a few moments ago.

Don't think for a minute that in the consideration of this budget you can please both the taxpayers and the tax spenders. The appetites of the tax spenders are insatiable. Some taxpayers want all governmental services possible, but want to pay for none. Neither of these divergent elements can be pleased. Rather, we must channel our energies and activities toward that broad middle group which wants good government, better governmental services, is willing to pay for them, but wants value received for each dollar spent. The budget is always the toughest single problem before the Legislature because it encompasses everything in our state government.

I do not want to pass the opportunity, on this occasion, to pay my respects to a great Nebraskan who served as Chairman of the Budget Committee during my first two terms as Governor. A member of the opposite political faith, he was always absolutely fair with me and with everyone with whom he dealt. He had a consuming passion to gain for the people of his state the most efficient and economical government possible. Senator John Callan served far beyond the call of duty and, in my judgment, added immeasurably to Nebraska's tradition for fine public service.

I want to salute, too, the other fine men who have served on the budget committees during the time I have been Governor.

I welcome the present distinguished Chairman of the Budget Committee, a seasoned legislative veteran, Senator Arthur Carmody, and his committee, as they take over the responsibilities of preparing the budget for the coming biennium. I assure them of my willingness to cooperate with them in every respect and pledge to them the efforts of everyone in the departments under my control to further their important task.

Ours, gentlemen, is a difficult task, an important task. Let us meet it squarely, and may God grant us the wisdom to so perform our duties that the best interests of the people of our state are served.

Respectfully submitted,

Val Peterson
Governor.

In conclusion it should be noted that in 1947 Real Estate and Tangible Personal Property were valued in Douglas County at a total of $303,732,000.00. This was the year the Douglas County Tax Appraisal Board was created.

The 1950 combined valuation is $379,974,000.00 or an increase of $76,242,000.00 from 1947.

Intangible Class A increased from $40,912,000.00 in 1947 to $56,796,000.00 in 1950 or an increase of $15,884,000.00.

Class B increased from $66,403,000.00 in 1947 to $88,833,000.00 in 1950 or an increase of $22,430,000.00.

Some of these increases are due to natural causes but much of it is due to better valuations and fine co-operation of the Douglas County Board of Equalization.

I, the undersigned Herbert T. White hereby certify that the above and foregoing itemization and summary of the work done by the Douglas County Tax Appraisal Board in 1949 and 1950 has been taken from the records of said Board and is a true and correct summary of the facts shown by said records to the best of my knowledge and belief.

Commentary

When the Board commenced its labors in July 1947, it divided its work into two divisions, one known as the Real Estate Section, the other the Personal Property Section.

On appraisals of Real Estate 16th & Farnam Street was used as a starting point expanding the work all directions from that point. This has resulted in re-appraisals of most business property first. As residence areas are reached the number of parcels appraised by the same set of workers in a given time increases markedly. Farm and suburban areas have not been reached. The Board felt that business property was properly the first to be re-appraised.

This re-appraisal has been carefully and scientifically made for the purpose, above all, of equalization. That the Board has succeeded in equalization is shown by the tremendous drop in the number of cases appealed to the Courts since the Board has been in effect. Only one case has gone to actual trial from appraisals made by this Board. Inasmuch as court trials cost the taxpayers heavily this represents a substantial saving. But more important it indicates a general feeling that the appraisals have been fairly made and that properties have been equalized.

The Board in its appraisals has arrived at its full valuation and then taken a figure of 70% thereof. The Board has recognized that there is an inflationary element in present values and has taken this into consideration in its valuations. However, we feel that we must be realistic and that to use values of the years preceding World War II is not to comply with the statutory law of Nebraska. Hence we have undertaken to follow the law.

More time has been required by the Board owing to the fact that the Board has been required to spend all of May, June and part of July each year with handling our complaints before the Board of Equalization and assisting when asked on other complaints. These complaints have been necessary to keep the valuations equalized. The Board of Equalization has done a fine job of co-operation on this but it takes time. However, as the number of properties appraised indicates, the work is going on with speed but not haste. This Board always furnishes what expert advice or help it can when requested by the County Board, the Board of Equalization, the County Assessor, the County Attorney, and the County Judge on any matter where valuation is involved.

The number of parcels the Board could appraise in a given time has been more than doubled since the increase made in our Revolving Fund by the 1949 Legislature. However, Omaha particularly has had and still is having much new building both business and residence. The Board is endeavoring to cover this new building which is comparable to properties already appraised to keep properties equalized. The law requires valuation of land and improvements to be made separately. By the expiration of the 4 year period provided in L. B. 434 of the 1949 session of the Legislature a large percentage of the county will be re-appraised, if we can maintain our present rate of appraisals.

In the Personal Property Section the Board has used the same general plan. Business properties were covered first. The Board secured voluntary action with many groups and with checking by the Board tangible personal property valuations have been increased so that the percentage ratio between real estate and personal total valuations has been substantially reduced in Douglas County. Stocks of merchandise and inventories have been conservatively but realistically appraised. Much more can be done in this field.

We are not a policy making Board but our work thus far shows that present tax laws can be administered. We recognize the difficulties of the Assessor and believe that the Appraisal Board system can do very much to make our tax laws more effective and the administration thereof more equitable and efficient. From general comment it seems as though the Tax Appraisal Board has met very general and wide spread acceptance in Douglas County. Our experience shows that there are amendments to the administrative laws that would further improve the valuation system, but as differences of opinion exist on some of these none are suggested.

Communications

Mr. Lee asked to have an article by Mr. Paul Talbot, taken from the United Business Service bulletin, January 22, 1951, read and made a part of the Legislative Journal.

"The Back Yard

Out in my state of Nebraska they have a beautiful and practical Capitol building. It is one of the first points of interest called to the attention of visitors to Lincoln and it is well deserving of that honor.

Furthermore, it was built without any bond issue and, thus far at least, its legislative occupants have refused to vote either sales tax or income tax as a means of raising state revenue—a truly remarkable record in these times.

But my purpose here is not to extol either the architectural grace of the building or the hard-headed actions of the unicameral legislators. Instead, I call attention to the motto over the Capitol entrance which reads:

'THE SALVATION OF THE STATE IS
WATCHFULNESS IN THE CITIZEN'

Certainly, there seldom has been a time in our national history when the thought expressed by those words is more needed than now. And at long last it seems that the rank and file of voters, political leaders and businessmen are 'standing up on their hind legs' and demanding to know just what our governmental policies are—and why.

This is a good sign, and while it is probably not possible to completely divorce such moves from party politics, it is significant that demands for a clear-cut statement concerning our foreign policy, for instance, are being heard from both sides of the aisle in Congress. Also, there are loud calls for substantial cuts in our non-defense spending being voiced by both Democrats and Republicans.

This is not an indication of national disunity—far from it. It is the sort of approach to our grave national problems which will bring the country solidly into line behind a known and clearly stated policy. It is a move in the right direction."

Attorney General's Opinion

February 15, 1951

Senator John Beaver
Legislative Chamber
State House

Dear Senator Beaver:

I have examined the pertinent statutes relative to the publication fee provided in L. B. 111 and as the question arose from the county treasurer of Cuming County.

The fee provided in L. B. 111 which is amendatory of section 33-141, R. S. 1943 is the legal rate for the publication of all advertisements required by law to be published.

The amount of thirty cents and twenty cents as provided in section 77-1804, R. R. S. 1943 is the amount specified that the county treasurer must charge to the landowner when a delinquent tax advertisement is published, this is not the amount that is paid to the newspaper, that amount is as fixed in section 33-141 supra. These laws have so stood on the statute books for over thirty years and in the case of Wisner v. Morrill County, 117 Neb. 324, 220 N.W. 280 the contention was made that the publisher was entitled to the twenty cents and thirty cents as provided in 77-1804 supra, instead of the rate for legals as provided in 33-141 supra. The Supreme Court held as follows:

> "Section 2407, Comp. St. 1922 (33-141, R.S. 1943), providing compensation at the rate of ten cents a line for the first insertion and eight cents a line for subsequent insertions governs the rate to be charged by newspaper proprietors for publishing the delinquent tax lists, rather than section 6052, (77-1804), which is a portion of the revenue law, and only provides the amount to be charged back by the county to the delinquent taxpayer."

L. B. 111 merely provides for an increase in the amount that may be charged by the newspaper for legals the charge back made by the treasurer to the delinquent taxpayer is entirely separate and apart.

I am returning the letter of the county treasurer to you.

Yours very truly,

(Signed) C. S. Beck

Statement—Introduction of Bill

March 2, 1951

A majority of the committee at a meeting held on March 1, voted to introduce a bill which will provide for the termination of the University of Nebraska experimental substation located in Valentine, Nebraska. This recommendation came originally from the University of Nebraska, and is supported by the Budget Committee. It is felt that the station is not well adapted for the work needed in the area served by it; that much of the work presently being carried on can be done at other points; and further because it is believed that such a transfer would permit a more effective use of state funds. The proposed bill provides for such a termination. (Signed) Arthur Carmody, Chairman

In order to avoid confusion of who shall be entitled free of charge to such services, the bill exempts the Military Department of the State of Nebraska from the payment of such fees, in order to be consistent with the free services rendered to the United States Veterans Administration. RESOLUTION

LEGISLATIVE RESOLUTION 4.

Messrs. Tvrdik, Williams and Larkin offered the following amendments:

1. Amend the resolution by inserting immediately after the introduction the following:

"WHEREAS, The Department of Assistance and Child Welfare, created in 1935, has made budget request for the biennium in the total sum of thirty-nine million, nine hundred one thousand, seven hundred dollars (eighteen million, three hundred forty-nine thousand, five hundred dollars from state and twenty-one million, ninety-one thousand, five hundred dollars from federal funds). About two million, three hundred sixty-one thousand, seven hundred dollars of this amount is requested for administration expense of state and counties. There are approximately twenty-three thousand one hundred twenty-eight recipients of assistance funds, and about three thousand five hundred twenty-nine children from whom child welfare funds are being paid out. A program exerting such a vital impact upon our states finances and its social wellbeing should have management which will be as simple, efficient, economical, and understandable as possible.

WHEREAS, In recent times and currently, emphatic and growing criticism from a large number of sources, many of them of position and experience to be well qualified, has been voiced that the legal structure of the department and its operation and management are highly unsatisfactory; that its development through the years has been heavily marked by expediency and has lacked integration; that procedures are unnecessarily cumbersome, expensive, time-wasting, and confusing; and that much of the reporting and supervision, and many requirements are highly wasteful and serve no useful purpose.

WHEREAS, State supervision of county administration of the program has become detailed and specific to a point of defeating its purpose. It is sought to apply numerous inflexible requirements and uniform regulations upon widely diversified conditions and circumstances existent over the entire seventy-seven thousand five hundred square miles of Nebraska, and often with impractical and unfair result. Supervisions is attempted and overdone by an overstaff of field supervisors, social analysts, child welfare consultants, case reviewers, field auditors, hearings examiners, and others. Their wanderings into every county of the state purport to be under the guidance and mandate of at least one hundred two finely printed pages of statute law; a five chapter manual containing over one thousand pages of rules, regulations and a total of over fifty forms, all often amended, changed, and added to, but never codified or simplified. All of this makes for duplication and confusion."

2. Amend the resolution by adding at the bottom of the resolution the following: "(4) That the committee be and hereby is authorized and directed, in the name of the State of Nebraska, to engage and contract for the services of a business management or a management consultant firm or company to make a complete survey and analysis of administrative procedures and routines of the assistance division of the Board of Control and to make a report

which will include recommendations for rendering all of the activities more simple, direct, economical, understandable, and efficient within the requirements of the law.

(5) That the final report of the committee shall include a record of its findings and of specific recommendations as to reorganization and corrective measures, both as to administrative procedures and as to policy.

(6) That there be appropriated the sum of fifty thousand dollars to defray the expenses of the committee's activities, including the cost of services rendered by the business management firm."

Pending.

March 9, 1951

Mr. Hugo Srb
Clerk of the Legislature
Building

Dear Mr. Srb:

At a meeting of the Board of Educational Lands and Funds held February 27, 1951, action was duly taken directing me to make a report to the Legislature relative to losses sustained by the Permanent School Fund for which the fund has not been reimbursed with the recommendation of the Board that such action as is necessary be taken to reimburse the fund.

Attached hereto is a report which is self-explanatory.

Sincerely yours,

Mr. President, Mr. Speaker and
Members of the Senate:

RE: REIMBURSEMENT OF PERMANENT SCHOOL FUND

The 1943 session of the legislature enacted L. B. 147, which provided for a levy of 1/10 of one mill on all tangible property in the state for the years 1943 to 1947, inclusive, to reimburse the permanent school fund in the sum of $503,929.10. At the same session the legislature also enacted L. B. 425 which provided that any money raised by the levy provided for in L. B. 147, not needed to reimburse the permanent school fund as provided in said act, should be used for the construction and equipment of a historical building for the Nebraska Historical Society.

The permanent school fund has now been reimbursed the sum of $503,929.10 from the proceeds of said levy and there is on hand in the state treasury as of February 28, 1951, the sum of $566,677.66 which has been credited to the State Historical Society.

The 1943 session of the legislature also enacted L. B. 97 which authorized the Board of Educational Lands and Funds to sell any of the bonds in the various trust funds under its management and trusteeship and provided that if such bonds should sell for more than their par value, the difference between the par value and the selling price should be considered a capital gain and used to offset past capital losses. However, in State ex rel. Boettcher V. Bartling, 149 Neb. 491, 31 N. W. 2d 422, our court held unconstitutional that portion of the act which provided that such gain could be used to offset capital losses. There is, therefore, at the present time no means of supplying losses to the permanent school fund which have been ascertained since the audit made by the state auditor in 1942. These losses are as follows:

Boyd County	$ 350.00
City of Fullerton	7,996.80
North River Irrigation District	144,000.00
South Sioux City	20,000.00
TOTAL	$172,346.80

There is also a further loss caused by the fact that county treasurers for a long period of time have been permitted to deduct 1% of the moneys collected under contracts for sale of school lands. This practice has now been discontinued but the result has been to deplete the school fund in violation of the terms of the grant from the federal government and the provisions of our state constitution. The exact amount of this loss has not been determined.

Statement By Mr. W. J. Williams

Mr. President and Members of the Legislature:

I recently created a situation before one of the committees of this Legislature that was unbecoming for a Member of this Body. For this discourteous act I now apologize to the entire Legislature.

It is never intelligent to lose one's temper. I hope that some of you realize, however, that there are times when the circumstances become almost unbearable, especially when one has worked on a project for two years with the firm belief that everyone concerned agreed with the purpose and goal.

I wish to make it crystal clear that the reorganization legislative bills are not my personal bills. They are the bills suggested by a subcommittee of the Legislative Council and approved by the Members of the Legislative Council.

It is certainly not my purpose to carry the torch alone for reorganizing state government. This is probably the last statement that I will make on these bills because I have complete confidence in Senator Vogel's committee and their ability to analyze the advantages of reorganization.

This incident, although embarrassing for me, provides one important development that should be called to the attention of this Legislature. It is my humble opinion that we should ask ourselves the question as to the actual need of the Legislative Council. Experience proves that Council suggestions have usually met with quiet opposition from the Chief Executive. The new Members of the Legislature do not pay too much attention to Council suggestions because they have not been a part of the group that made the suggestions. Further, many new Senators won elections over Members of the Council. Even some members of the Council fail to support legislation that they helped create.

If the Legislative Council members do not support subcommittee reports, then we are just wasting our time and the taxpayers money. About the only thing we accomplish is the introduction of a lot of legislation that members won't support and the writing of lengthy reports that few take the time to read.

This issue is not a personal one with me but the time has arrived for Members of this Body to either say that the Legislature has a right to carry out certain functions or through lack of interest or action, hereby surrender Legislative functions to the Governor of the state and the Department Heads.

To make a record of my views and to face up to the issue I would stress the following points:

1. The Legislature does have certain rights but more important, this Body has responsibilities.

2. Figures and facts prove that our costs of state government have increased at an alarming rate and it is our responsibilty to eliminate waste and inefficiency whenever possible.

3. A portion of the Hoover Commission report on reorganization of the Federal government was strongly assailed by the Governor who said the report was written by an outside expert who did not know what he was talking about. I agreed with his statement at that time concerning the outside expert. I have not changed my mind concerning outside experts. Nebraskans are capable of adding two and two and Governor McKelvie and the Legislature accomplished reorganization without the aid of experts that has stood the test of efficiency for many years. It is well to point out that Governor McKelvie, when he was the Governor, led the fight to reorganize.

The words "Hoover Commission" do not in themselves, add up to efficiency. Commissions have been used to stall for time and delay action. Talking economy and accomplishing economy are apparently unrelated, except for political purposes.

MESSAGE FROM THE GOVERNOR

March 12, 1951

To the President, the Speaker
and Members of the Legislature

Gentlemen:

The Unemployment Insurance Law provides that an individual's right to benefits is based upon the money he has earned in private industry during the year immediately prior to the date he files a claim.

Under the present statute, members of the armed forces from this state, who formerly worked in private industry but were in the armed services for more than a year, would not be entitled to unemployment insurance upon their discharge because they would not have any earnings from private industry during the year prior to the date of their claim. This time having been spent in the armed services.

The purpose of this bill, which is being introduced by Senators McNutt, Marvel and Duis at my request, is to provide that individuals, who entered the armed services after June 30, 1950, shall be entitled to benefits based upon their earnings in private industry prior to the time they entered the armed services and not based upon their earnings the year prior to the date they filed their claim. In other words, the bill preserves to the members of the armed services all rights to unemployment insurance that they had when they entered the armed services.

Respectfully submitted,

(Signed) Val Peterson

Motion—Return L. B. 229 and L. B. 357 to Select File

Mr. President: I move that L. B. 229 and L. B. 357 be each recalled from the E and R Committee and placed on Select File for the purpose of incorporating and correlating the amendments in L. B. 357 into L. B. 229, since both bills involve the amendment of the same law, section 37-215, Revised Statutes Supplement, 1949; and that L. B. 229 be specifically amended as follows:

1. Amend by striking all of E and R Amendments 2 and 3, adopted February 27, 1951.

2. Amend Section 1, line 13, by inserting the words *"doe and horned buck"* after the word "of".

3. Amend Section 1, line 21, by adding the following sentence: *"No person shall be issued a special permit to kill doe and horned buck deer oftener than once in any three consecutive open seasons."*

4. Amend Section 1, line 14, by de-capitalizing the word "counties" and underscoring the de-capitalized word.

5. Amend page 3 of the bill by striking section 3 and inserting in lieu thereof the following: "Sec. 2. That original section 37-215, Revised Statutes Supplement, 1949, is repealed."

6. Amend the title, lines 2 to 10, by striking all of the title after the word "section" in line 2, and by inserting in lieu thereof the following: "37-215, Revised Statutes Supplement, 1949, relating to game and fish; to provide that a special permit for killing doe and horned buck deer shall not be issued to the same person oftener than once in any three consecutive open seasons; to remove the restriction on the killing of female deer; to extend the area for killing of doe and horned buck deer; and to repeal the original section."

7. Amend the bill by adding the names of H. K. Diers of York and C. C. Lillibridge of Saline as co-introducers.

I further move that when the foregoing amendments to L. B. 229 have been adopted, that L. B. 357, as amended, be indefinitely postponed. (Signed) Otto J. Prohs

MESSAGE FROM THE GOVERNOR

March 21, 1951

To the President, the Speaker
and Members of the Legislature

Gentlemen:

In the fall of 1949 this office was privileged to co-operate with Attorney General James H. Anderson in the planning and action which resulted in the smashing of illegal gambling in Nebraska.

The Anderson drive was a complete success and his policies have been vigorously pursued by his successor, Attorney General Clarence S. Beck. Mr. Beck has learned that organized gamblers do not give up easily, and just recently has moved against the pinball machines to which the gambling fraternity had turned. A recent Iowa Supreme Court decision declaring certain types of pinball machines gambling devices cleared the way for this action.

At the time of the action by Mr. Anderson there was considerable opposition to the enforcement of the gambling laws. Some of it was bitter. County and city authorities, nevertheless, co-operated fully and effectively, and the organized hoodlums who were beginning to make inroads into our state were thwarted.

Some time after the Nebraska action, the Senate Crime Investigation Committee was organized and went to work. In the months that have followed all America has been shocked at the disclosures which have resulted. Lush profits from gambling have been used to corrupt public officials and to make a mockery of the law.

Our sister states of Minnesota, Wisconsin and Iowa have found that acts providing for the revocation of state licenses for the intentional possession or willful keeping of gambling devices upon licensed premises have been very valuable in suppressing gambling activities.

In the conviction that Your Honorable Body joins me in my desire to see Nebraska remain free from illegal gambling and the vicious results which flow from it, I am submitting for your consideration a bill patterned after the Minnesota law. Senators Lee, Hoyt and Liebers are introducing the bill at my request.

Respectfully submitted

(Signed) Val Peterson
Governor

L. B. 447 Without Approval

April 3, 1951

To the President, the Speaker and
Members of the Legislature

Gentlemen:

Governor Peterson has permitted LB 447 to become a law without his signature.

The Governor felt he could not sign the measure in view of the attached letters from the Attorney General of Nebraska which challenge its constitutionality. On the other hand, its purpose is highly laudable. Accordingly, the Governor has refrained from the veto to permit the issue to be determined in the courts.

Respectfully submitted,

(Signed) Marie Krumwiede
Secretary to the Governor

Opinion of Attorney General

March 22, 1951

Hon. Val Peterson, Governor
State of Nebraska
State Capitol Building
Lincoln, Nebraska

Dear Sir:

You have inquired as to the consitutionality of L. B. 447 in the event it should be enacted in the form in which it presently stands. We enclose a copy of a January 25th letter addressed to Senator Tvrdik relating to the purposes for which it was then proposed to introduce the bill. We adhere to the opinions expressed in this letter, and after time for mature consideration of the elements involved in this legislation reach the conclusion that it cannot be constitutionally appropriate legislation in Nebraska, and that any contributions made under it by the districts or utilities involved will be void and unconstitutional.

The bill provides generally that a public power or water district serving a metropolitan city may use up to one-half of one per cent of its revenues derived from sale of electricity or water to users within the city limits of such metropolitan city as contributions to eleemosynary and charitable institutions which will expend the money within the corporate limits of such metropolitan city. It is made a condition precedent to any such gift that two-thirds of the members of the board governing such utility shall first determine that such contribution would protect and increase the safety of its property and promote the health and welfare of its employees and enable them to render more efficient service to the corporation or political subdivision and enable it better to discharge its duties to the public.

Generally speaking, the words Charitable and Eleemosynary are used synonomously, but when they are joined by the word "and", we feel that a separate meaning is implied to each under ordinary legislative construction rules. See Words and Phrases, Vol. VI, page 591. This being so, eleemosynary in its individual sense seems to be a much broader term and would include such institutions as Masonic Orders, church or other non-public schools and hospitals, societies for prevention of cruelty to animals, orphanages, etc.

It is still our understanding that this act is for the purpose of permitting contributions to the Community Chest and other worthwhile societies in Omaha. Actually it is much broader than this and permits donations to any institution charitable or eleemosynary in nature located anywhere in the world but expending money in Omaha, Nebraska. There is no limitation as to sectarian or nonsectarian corporations in this connection, and although in view of the position which this office has relating to the bill this failure to exclude sectarian institutions is immaterial, we state unequivocally that insofar as it authorizes any gift or donation or other form of support to any religious school or to any charity operated by any religious sect or denomination, the act and any contribution made under it are wholly in violation of the tenets of the United States and Nebraska Constitutions which are as old as this Government itself. The mere interposition of a corporation for the purpose of soliciting funds and distributing them to such organizations and for the purpose of acquainting the public with the needs of such organizations and exciting the public interest in contributing to them does not alter the fact that a donation to the support of a particular sect has been made.

We feel that a recent Arkansas case, Little Rock v. Community Chest, 163 S.W. 2d 522, is most pertinent in connection with those utilities which have issued and have obligations in the form of revenue commitment bonds. That case considered the precise question here involved and ruled that for the state to enact at a later time an authorization to make expenditures by a city water works commission to Community Chest Funds amounted to impairment of the obligation of a contract by the state and held that such legislation was in violation of section 10, Article I, of the Constitution of the United States. The court said (as may be said here):

> "We think the act, although its purpose was laudable, was ineffective to authorize the City or the Commissioners to make a binding subscription to appellee (Community Chest) payable out of the water works revenues."

The Supreme Court of this state has long followed the rule of strict adherence to this respect of the obligation of contracts. See Ritter v. Dist. No. 1, 137 Neb. 866, 291 N.W. 718.

As mentioned in our letter to Senator Tvrdik with reference to the limitations of the Constitution contained in Article XIII, section 3, our court held in Oxnard Beet Sugar Company, 73 Neb. 66, 105 N.W. 716, and companion cases cited thereafter, that no contribution in the nature of a bounty could be made to private sugar companies. We feel that this section limits the power of the Legislature itself to make awards or contributions to the particular societies (sectarian or non-sectarian) making up the objects of the bounty of L. B. 447, and we are of the opinion that the limitation extends to the subdivisions of the government under the control of the Legislature, as to proprietary functions.

By the amendments to this bill it is sought to make these contributions comparable to contracts for contribution to the safety of the property and to the morale and efficiency of the employees. The Legislature has not stated in the bill that any connection exists between the two. We doubt the ability of the Legislature so to state in the absence of the actuality of such condition, but we feel certain that a determination by the Board of Directors of any such utility that a certain contribution will have that effect upon the property and efficiency of the utility does not make it legally so. The donations in any event are to corporations or associations, however laudable in their purpose, and to whatever extent they reduce the state, county and city charitable load, which are in the eyes of the courts "legally irresponsible" corporations. This does not mean they do not wisely administer their funds, but merely means that they are not public but private in nature, doing charitable work along the lines to which they are devoted. They select the objects of their bounty without regard for legal eligibility for public bounty.

In view of the earnest support which this bill has had we have made every effort to find a basis upon which it might be upheld. We are aware that the very enactment of a bill by the Legislature gathers to that law a strong presumption that its purposes are worthy and its enactment proper, but notwithstanding that presumption, (Clough v. North Central Gas Company, 150 Neb. 418, 34 N.W. 2nd 862), we feel that this legislation so clearly violates sections of the Constitution which we have mentioned that it cannot be sustained as a valid legislative act.

Respectfully,

CLARENCE S. BECK
Attorney General

January 25, 1951

Senator Charles F. Tvrdik
Senate Chamber
Capitol Building

Dear Sir:

On January 24 you inquired of this office as to whether the Omaha Public Power District and the Metropolitan Utilities District now have the right to give or donate money to charitable agencies such as the Red Cross-Community Chest, etc.; and you further inquire whether legislation authorizing such donations would be valid.

The question which you present is quite broad in its aspect, and not subject to a final determination by this office without information as to the following items: (1) The commitments which currently exist in revenue or other debentures of these districts, (2) the corporate charters of each of the institutions which are sought to be made beneficiaries of a donation, together with a determination of whether or not such institution constitutes a religious or sectarian enterprise.

We have, however, been able to make a somewhat complete study of the general proposition as to whether under the Nebraska Constitution donations may be made to such institutions, and it is our opinion that they cannot be made. This opinion is the same under the existing laws governing these districts as it would be with reference to the validity of laws specifically authorizing such expenditure. The fact that a public power district does not receive tax money does not alter the fact that such district is a governmental subdivision, they having been judicially held to be such by the Supreme Court in the case of Burnett v. Central Nebraska P. & I. Dist., 147 Neb. 458, 23 N.W. 2d 661. This means, and it seems not subject to doubt, that the revenue of these districts becomes, upon receipt by the district, public money and as such it becomes money to the credit of the state and its various subdivisions. Article VIII, Section 3 of the Nebraska Constitution reads as follows:

> "The credit of the state shall never be given or loaned in aid of any individual, association or corporation."

At 142 A.L.R., p. 1076, appears an annotation relating to these donations when considered in conjunction with similar constitutional restrictions, and an examination of the authority found in that annotation indicates that these donations would be within the prohibition of the above section. The only cases found in our examination which permit contribution to charity by municipal corporations do so because of the authority to provide for the general welfare of the people—an authority not included in the purposes of a non-governing power district. See 142 A.L.R. 1069. A Nebraska case, Village of Grant v. Sherrill, 71 Neb. 219, considers the above constitutional section as it appears in the Constitution of 1875 and states as follows: "Under our constitution, donations can be made by municipal authorities only to aid in works of internal improvement***", and then only upon a vote of the people as provided in Article VIII, Section 2.

A further constitutional limitation which would be brought into rather clear relief in any study of this matter is Article III, Section 18, which provides that no local or special law may grant to any corporation, association or individual any special or exclusive privilege, immunity or franchise. Also involved is the prohibition upon the encroachment of the state upon any religious or sectarian institution. Article VII, Section II, states in part as follows:

> "Neither the state legislature nor any county, city or other public corporation shall ever make any appropriation from any public fund *** in aid of any sectarian or denominational school or college, or any educational institution which is not exclusively owned and controlled by the state or a governmental subdivision thereof."

The mere intercession of a corporate body such as a Community

Chest between the donating agency and an institution of a church or of a sectarian body which had as its purpose and function the conduct of a school or of any educational classes of any kind would not circumvent this provision as to such sectarian institution. There is further guaranteed to the citizens of Nebraska in Article I, Section 4, freedom in all matters of religion. The use of state funds to support a school maintained by a religious denomination has been held to violate this section of the constitution. See State v. Taylor, 122 Neb. 454, 24 N.W. 573. By the same analogy used in that case, the granting of assistance in the form of the money or credit of the state to one sectarian charitable institution while not granting it to another, constitutes a violation of this important tenet of American life. The pertinent wording of this section is, "no preference shall be given by law to any religious society, ***".

If a bill is prepared in the current session for the purpose of providing for specific donations to specifically named companies or corporations, we will be pleased to examine the matter further in the light of the actual content of the charters of these corporations, but we are unable at the present time to comprehend authorizing the donation of public money received from water or electric power sale for such purposes, however worthy the ends and objects of the charter.

Very truly yours,

CLARENCE S. BECK
Attorney General

MESSAGE FROM THE GOVERNOR

Appointment

March 29, 1951

To the President, the Speaker and
Members of the Nebraska Legislature:

Gentlemen:

For the information and subject to the approval and consideration of Your Honorable Body, I am pleased to advise that I have appointed J. M. McDonald, Jr., of Hastings, Nebraska, to the Merit System Council, for a three-year term beginning March 29, 1951, and expiring March 1, 1954.

Respectfully submitted,

(Signed) Val Peterson
Governor of Nebraska

Without Acting Governor's Approval

April 4, 1951

To the President, the Speaker,
and Members of the Legislature

Gentlemen:

As Acting Governor, I herewith respectfully return without my signature L. B. 1. I disapprove this bill for the following reasons:

L. B. 1 creates in the Department of Agriculture and Inspection a new Division of Wheat Development and Utilization. This creates another unnecessary agency of government at a time when we should simplify rather than expand our state government.

There already exist adequate provisions for the State Agricultural College to conduct all necessary experiments in wheat development and utilization, and likewise the United States Department of Agriculture has ample facilities and power to conduct such research.

The bill provides for a special tax upon wheat growers for a service, which if it were really necessary, would benefit all the people of the state, and, therefore, the tax is discriminatory.

It also appears to me that there would be a strong tendency for large wheat growers to sell their wheat outside the state thereby avoiding the tax and leaving its burden on the smaller growers.

Respectfully submitted,

(Signed) Charles J. Warner
Acting Governor

MESSAGE FROM THE GOVERNOR

April 9, 1951

The President, the Speaker, and
Members of the Legislature

Gentlemen:

A Mr. Hall has made a statement that the Highway Department has discriminated against him in the use of Republican River aggregate in concrete for road surfacing. Based on a preliminary report of the Highway Department, I have prepared a statement in this matter for your study, and am attaching such statement.

I have further asked Mr. Klietsch to make a report in detail in this matter. This report, when completed, will be placed on your desk for perusal. This is a technical matter involving certain tests of gravel and sand in relation to their reaction when mixed with cement, and must be explained in detail. I anticipate preparation of the report will require approximately a week.

Respectfully submitted,

(Signed) Val Peterson
Governor of Nebraska

Statement from the Governor

Republican River aggregate is just one of many types of gravel and stone which is not suitable when used in large amounts in concrete for highways.

These types cause an abnormal deterioration when exposed to Nebraska's varying weather conditions.

Many of these aggregates are perfectly all right, however, for use in bituminous mat surfacing, or for use in graveling roads.

In fact, there are hundreds of gravel and stone deposits in Nebraska that are acceptable for road surfacing material and for use in oil mixtures, yet are not acceptable for any or all concrete mixtures.

When mixed in large amounts with cement and water, an abnormal reaction results which causes early hairline cracks in the surface of concrete.

The Bureau of Reclamation and the Corps of Engineers also recognize the unsuitability of Republican River aggregate by prohibiting its use as coarse mix in concrete and drastically restricting its use as fine mix in all their work in this area.

The decision to discontinue the use of this type of aggregate in concrete was based on the results of the Highway Department's continuing study of unusual deterioration of the highways.

About 15 years ago, the department observed some evidence of an unusual type of concrete surface deterioration, now termed "map cracking." The condition was first observed as an irregular pattern of hairline checks immediately after a rain.

Further observation over a period of years indicated this characteristic was progressive, or in other words, became more severe each year. Therefore the Highway Department intensified its studies to learn the causes and to develop methods for eliminating or minimizing this type of deterioration.

This "map cracking" was observed in varying degrees in concrete containing sand-gravel aggregates obtained from most sources in the state. But studies by the Highway Departments of Kansas and Nebraska revealed that Republican River aggregate contributed to earlier and more severe deterioration than aggregates from most other sources that had been generally used in these states.

Therefore, in 1947, we discontinued the use of aggregates which were abnormally reactive in concrete, pending the development of practical and economical corrective measures.

Republican River aggregates, as well as aggregates from several other sources in Nebraska, were considered to be abnormally reactive.

I believe the best example of the problem is portrayed in the construction of the Harlan County Dam by the Corps of Engineers. In this dam, considerable concrete was required in footings which would always be buried well beneath the surface of the river bed.

When the concrete for this portion was mixed, the sand required was obtained from the Republican River, within a mile of the dam site. In constructing the top portion, however, the sand was hauled in a distance of approximately 43 miles and was produced from a deposit near Cowles, Nebraska.

Republican River sand could be used in the lower part of the dam buried beneath the ground because temperature variations would be slight. There the material would not expand or contract to any extent, and the abnormal expansive characteristics of the Republican River gravel would not be involved.

The statement that much money could be saved if gravel were purchased in the immediate area of the construction is academic. For example, if the engineers at the Harlan County Dam had used Republic River sand in the upper part of the structure instead of hauling it 43 miles, thousands of dollars would have been saved in the construction cost. But the cost in rapid deterioration and danger to the dam might have run into millions of dollars.

The same is true of state highway construction in Nebraska. We might save a few thousand dollars when the road is built, but the final cost would be catastrophic to Nebraska's highway program.

A continuing study of this problem, and receipt of pertinent data from other engineering sources, has permitted the Highway Department to amend its 1947 decision. Now Republican River sand may be used in proportions up to 50 per cent of the total aggregate in concrete if used with cement of low alkaline content. However, coarse aggregate from the Republican River still is not acceptable on contract work for use in concrete.

The Highway Department, of course, does not purchase sand and gravel itself. The contractor who actually builds the road buys aggregate from any source he wishes, as long as it meets the specifications of the Highway Department.

There has been no discrimination against any person or firm in the enforcement of the department specification, but the material must meet engineering standards if we are to give the people of

Nebraska the most economical highway that engineering technique can provide.

Engineering representatives of the Bureau of Reclamation, the Army Corps of Engineers and the Kansas Highway Department have been co-operating with the Nebraska department on this problem, and, I am certain, will confirm our conclusions with regard to the unsatisfactory reaction of Republican River aggregate when used in concrete.

Our department does not approve or disapprove the use of materials in road construction because of coercion or intimidation, misrepresentation or threats to "blow the lid off." Our action in this regard is based entirely upon experience, observation, research and laboratory analysis of the materials involved and the end product desired.

Announcement

As Speaker of the Sixty-second Session of the Nebraska Legislature, I believe it is my duty to answer some derogatory statements made in the press concerning the members of the present Unicameral.

In my opinion, the membership of this Legislature, as a whole, is the hardest working and the most able of many years. Many other Senators, as well as myself, who never touch alcoholic beverages in any form and never have, certainly resent these innuendos and derogatory statements.

The present membership is the most moderate and comprises the finest gentlemen with whom I have had the pleasure of serving. True, they do not always agree and no sound thinking person would expect complete agreement. But, if you disagree that does not mean you have been influenced by someone.

I challenge any partisan bicameral or non-partisan legislature to show a better record or a more thorough study of the problems of the people of Nebraska.

I certainly would favor bringing to light any lobbying activities in any field. I also would ask those that say members of the Legislature have been influenced by lobbyists to bring specific charges against specific persons or stop this loose newspaper talk. I think the people of Nebraska are entitled to sound information, not opinionated expressions. (Signed) Ed Hoyt

Opinion of Attorney General

April 9, 1951

SUBJECT:	Constitution; Executive Power; Exercise by lieutenant governor in absence from the state of governor.
REQUESTED BY:	Hon. Arthur Carmody, State Senator, Capitol.
OPINION BY:	Clarence S. Beck, Attorney General; William T. Gleeson, Assistant Attorney General.
QUESTION:	Whether the lieutenant governor during a temporary, nondisqualifying absence from the state of the governor may exercise the law-making power vested in the governor by the Constitution in respect to a bill which is passed by the legislature and presented to the governor who, during the five-day interval allowed to him for consideration of the bill, leaves the state but within the five-day interval returns to the state, there then remaining unexpired of the five-day interval time within which the governor may exercise the law-making power?
CONCLUSION:	No.

ANALYSIS

Section 16 of Article IV of the Constitution provides as follows:

"In case of the death, impeachment and notice thereof to the accused, failure to qualify, resignation, absence from the state, or other disability of the governor, the powers, duties and emoluments of the office for the residue of the term, or until the disability shall be removed, shall devolve upon the lieutenant governor."

The Constitution, section 15 of Article IV, vests in the governor a discretion to weigh and consider a bill for a period of five days, Sundays excepted, to determine whether he will concur in the action of the legislature and hence approve the bill, whether he will not concur and hence veto the bill, or whether he will allow the five-day period to run its course intending, whether or not he states his reasons, that the bill shall become law "in like manner as if he had signed it".

It appears that L. B. 1 was passed by the 1951 session of the Legislature and on March 30, 1951 at 9:30 a.m. L. B. 1 was presented to the Governor. On April 2, 1951 at approximately 10:27 p.m. the Governor proceeded to leave the State of Nebraska. On April 4, 1951, in the absence from the state of the Governor, the Lieutenant Governor vetoed L. B. 1 and returned it with a veto message to the Legislature at 10:15 a.m. On the same day at 1:30 p.m. the Governor returned to Nebraska, arriving at the airport at Omaha from which point he proceeded to Ogallala, Nebraska. The Governor returned to his office in the Capitol at 3:00 p.m. on Thursday, April 5, 1951.

It is plain from the foregoing statement of facts that the five-day interval expired at 9:30 a.m. on April 5, 1951, Sunday excepted. It is settled law that the governor is a part of the law-making power, and, in acting on bills presented to him for his approval or rejection, he is engaged in the performance of a legislative duty enjoined upon him by the Constitution. Weis v. Ashley, 59 Neb. 495, 81 N.W. 318. Likewise, it is settled that every bill, before it becomes a law, even if passed by a three-fifths majority, must be approved by the governor, passed over his veto, or remain in his hands more than five days, Sundays excepted. State ex rel. Main v. Crounse, 36 Neb. 835, 55 N.W. 246.

The question is, therefore, whether the exercise of this particular constitutional power devolves upon the lieutenant governor in a case where the absence from the state of the governor is one which, it must be conceded, is temporary and nondisqualifying, is an absence which is not of sufficient duration to interfere with public interests, and is an absence which does not result in a delay in the performance of the particular constitutional duty in question. In short, does the Constitution, upon the occasion of a brief absence from the state of the governor, purport to authorize the lieutenant governor to substitute his discretion for that of the governor when time remains, upon the return of the governor to the state, within which the governor may determine the matter?

A similar question was considered by the Supreme Court of Wisconsin in State ex rel. Olson v. Lahiff, 146 Wis. 490, 131 N.W. 824 where the question was whether a power to appoint to public office could be exercised by a president of a city council during a temporary absence from the city of the mayor who had a stated period of time within which to make the appointment and his absence from the city was on a day within the period. The court held that the power could not be so exercised, and said:

> " 'Absence' must be construed reasonably, and so construed means, we think, what may be called 'effective' absence. If during the mayor's absence from the city, even for a brief time, a riot occurs, or an occasion arises which demands immediate exercise of the executive power to preserve order or enforce the laws, the powers and duties of the mayor to meet the emergency must necessarily be vested in the president of the council fully and completely during the period of the absence. But a different situation is presented when the mayor has a certain period of time within which to perform an act like the appointment of an officer or the approval of a resolution or ordinance passed by the council. In such cases it is very evident that the time which is allowed the executive is allowed so that he may have opportunity for reflection and weighing of arguments pro and con. Can it be possible that it was intended that, if the mayor is called from the city for a few hours during this period, the president of the council can step in during his absence and make an appointment, or veto an ordinance while the mayor's time for consideration thereof is still unexpired and perhaps only just begun? Few would contend, we think, that the statute was intended by the Legislature to accomplish such results, nor do we think that its wording compels such results. It seems to us that it may properly and logically be said in such a case that with reference to the particular duty in question there has been no absence from the city on the part of the mayor; i.e., no absence which renders him unable to perform that particular duty. Take the present case as a concrete example. The mayor had a whole week in which to make the appointments. He was absent the first day of the week. Presumably he was still considering names of possible appointees and weighing their respective merits. Presumably, also, he was expecting to make the appointments before the end of the week. It seems absurd

> to say that by this one day's absence from the city he lost the power which the law vested in him for the entire week, and we therefore hold that there was no absence here within the meaning of the statute with reference to this particular duty........"

The precise question was considered by the Supreme Court of New Jersey in In re An Act Concerning Alcoholic Beverages, 130 N.J.L. 123, 31 A. 2d 837, where the question was whether the word 'absence' as used in a constitutional provision that in case of the governor's absence from the state, the powers and duties of the office devolve on the president of the senate until the governor shall return, meant an absence from the state by the governor for any purpose or for any period of time however short. In that case the president of the senate during the governor's absence from the state approved a bill passed by the legislature, and, although the action was upheld upon grounds which are not pertinent to a consideration of the instant case, the court said:

> "To say that the word 'absence' or 'absent' from the state means 'non-presence' in it (Cf. Manners v. Ribsam, 61 N.J.L. 207, 41 A. 676; Engeman v. State, 54 N.J.L. 247, 251, 23A. 676), does not answer the question in issue. For what purpose and for how long must the governor be not present in the state before he can be said to be absent therefrom? The authorities which have considered these questions are not in accord. One view holds that such words comprehend an 'absence' from the state by the governor for any purpose or for any period of time however short. Typical cases in support of that view are Re Crump, 10 Okl. Cr. 153, 135 P. 428, 47 L.R.A., N.S., 1036; Montgomery v. Cleveland, 134 Miss. 132, 98 So. 111, 543, 32 A.L.R. 1151; Walls v. Hall, 202 Ark. 999, 154 S.W. 2d 573, 136 A.L.R. 1047. Another view holds that such words mean an 'absence' such as will 'injuriously affect the public interest' and does not include 'a mere temporary absence.' Typical adjudications in support of that view are State ex rel. Warmouth v. Graham, 26 La. Ann. 568, 21 Am. Rep. 551 and cases collated in Montgomery v. Cleveland, supra, at page 144 of 134 Miss., at page 112 of 98 So., at page 1154 of 32 A.L.R. For a summary of both views, see 12 R.C.L. (Governor) sec. 12, pp. 1011, 1012; 24 Am. Jur. Governor, sec. 9, p. 828.
>
> "Under the first view, notwithstanding modern facilities of communication and transportation, the governor would be absent from the state if he were but to leave it long enough to go to New York or Philadelphia for part of a day or evening to attend a public or private function.

> "It is not reasonable to adopt so narrow and strict construction or interpretation of the word 'absence.' We think that the other view which is made to depend upon the particular facts and circumstances of each 'absence' from the state by the governor comprehends the common sense idea of the word 'absence' as used in the constitution. We adopt it . . ."

It is our considered opinion that the language of section 16 of Article IV of the Constitution of Nebraska may fairly and properly be similarly construed. We are fortified in this conclusion, notwithstanding Walls v. Hall, 202 Ark. 999, 154 S.W. 2d, 573, 136 A.L.R. 1047, which held to the contrary, by the opinion of the court in Johnson v. Johnson, 141 Neb. 239, 3 N.W. 2d. 414, where the question considered was whether a lieutenant governor could claim the salary of the governor's office on the occasion of the governor's absence from the state. It was held that:

> " 'Absence from the state,' to entitle the lieutenant governor to the emoluments of the office of governor, is an absence amounting to a permanent disability or to a temporary disability creating a vacancy or to a disability which prevents the governor from holding the office. A governor does not lose his office by stepping over the boundary line of the state for a purpose or for a time that does not disqualify him from holding the office. During such an interval the lieutenant governor does not become governor. The Constitution does not provide for two governors at the same time. When the lieutenant governor performs duties in the executive office during a temporary, nondisqualifying absence of the governor, he still acts as lieutenant governor and his compensation during such an interval is the lawful salary for that officer. . . ."

Examination of the briefs in the Johnson case discloses that there was submitted to the court for its consideration all the pertinent cases, including those cited in the opinion of the New Jersey court in the case considered above, which dealt with the devolution of the powers and duties of the governor during his absence from a state. It was contended, vigorously, learnedly and ably by counsel for the appellant that if the powers and duties of the office of the governor devolved upon the lieutenant governor, then so would the emoluments. The court unanimously rejected the argument and went on to affirm, contrary to Walls v. Hall, supra, that the lieutenant governor is not a de jure governor when he assumes, during a temporary, nondisqualifying absence of the governor, to perform duties in the executive office, and expressed opinion, perhaps obiter dictum, that there were certain constitutional powers, such as the power to remove and appoint public officers, which it ought not to be presumed the lieutenant governor could constitutionally exercise in such circumstances.

The court said:

> ". . . In construing a provision of the Constitution, statesmanship should be imputed to the framers thereof, if permissible, rather than absurdity. When the purposes of the constitutional provisions under consideration are considered with other provisions throwing light on the same subjects, the more reasonable and better interpretation is the one adopted by defendants."

We are of the opinion, therefore, that the act of the Lieutenant Governor, the veto and return by him of the bill to the Legislature, was a nullity and the bill, not having been returned by the Governor within five days, Sunday excepted, after it had been presented to him, became a law "in like manner as if he had signed it". The bill should, therefore, be deposited with the Secretary of State.

It is to be understood that this opinion is confined solely to the question whether, as a matter of constitutional procedure, this particular bill, L. B. 1, became a law. We express no opinion in respect of the practice of a lieutenant governor to exercise the law-making power of a governor during an absence from the state of a governor for a period of time which is in excess of the five-day interval, nor do we presume to affirm that other constitutional powers may not appropriately be exercised by a lieutenant governor during a temporary, nondisqualifying absence of a governor from the state.

Very truly yours,

MESSAGE FROM THE GOVERNOR

April 10, 1951

To the President, the Speaker,
and Members of the Legislature

Gentlemen:

With reference to L. B. 1 now in the possession of the Legislature, I quote from the opinion of the Attorney General of Nebraska as follows:

"We are of the opinion, therefore, that the act of the Lieutenant Governor, the veto and return by him of the bill to the Legislature, was a nullity and the bill, not having been returned by the Governor within five days, Sunday excepted, after it had been presented to him, became a law 'in like manner as if he had signed it.' The bill should, therefore, be deposited with the Secretary of State."

In view of this opinion, I request that the bill be returned to my office for deposit with the Secretary of State.

Respectfully submitted,

Amend pages 2 and 3 of the bill, section 1, by striking lines 31 to 47 and inserting in lieu thereof the following: "*(4) Any school district in this state, wherein one or more of the children of parents residing on tax exempt air fields owned by a city shall attend school, shall be entitled to charge as tuition for each of the pupils, for the time the pupil is enrolled, the amount charged other elementary pupils per week if such child is enrolled in the grade school and the regular high school tuition if the child is enrolled in the high school of such district. The tuition so charged shall be paid by the city out of the income derived from the operation of the facility, or by the corporation which operates the same and derives the profit.*"

2. Amend page 3 of the bill, section 1, by inserting after new subsection 4, a new subsection to be known as subsection 5 and to read as follows: "(5) *Whenever a district shall suffer a reduction in the assessed valuation of the real property within the district by reason of the purchase or appropriation by the United States or any instrumentality of the United States of land therein for any defense, flood control, irrigation, or war project, and the number of children between the ages of five and twenty-one years residing in the district shall be increased by reason of the use by the United States of the land so purchased or appropriated for the above mentioned purposes, and such increase in the number of pupils who will be eligible to attend school in the district does or will require a levy of taxes for general school purposes in excess of the average levy for general school purposes of school districts of the same class in the county, then the county superintendent shall have authority and it shall be his duty so to change the boundaries of the existing district as to exclude therefrom all land purchased and appropriated by the United States and all land which*

by reason of its use or ownership is exempt from state taxation under the Constitution and statutes of the United States. Where the United States, by the appropriate officer, does not accept or shall not have accepted exclusive jurisdiction over land so excluded, then the county superintendent shall form a new school district embracing land thus excluded."

Unanimous Consent—Print Opinion of Attorney General

Mr. Lillibridge asked unanimous consent to have the Opinion of the Attorney General dated February 14, 1951, addressed to Mr. Carmody, printed in the Legislative Journal.

Consent was granted and it was so ordered.

Opinion of Attorney General

February 14, 1951

Hon. Arthur Carmody
State Senator
State House
Lincoln, Nebraska

Dear Sir:

You inquire whether the constitutionality of L. B. 1, the proposed Nebraska Wheat Utilization Act, would be open to question if the bill were so amended as to authorize the refund of the tax as provided in a proposed amendment which reads as follows:

> "Provided, that when any wheat grower objects to paying or having paid the tax, the director may refund the tax paid to

> the grower according to rules and regulations to be adopted by the director."

It is our opinion that the bill would be unconstitutional if it were enacted with the foregoing provision for a refund to a wheat grower who objects to paying the tax or who wishes to have the tax remitted. To provide that some of the persons who pay a tax, which must be presumed to have been levied for a public purpose, may recover their money for the reason that such persons prefer not to be subjected to a duty to pay the tax is to run afoul of section 18, article III of the Constitution which prohibits the "granting to any corporation, association, or individual any special or exclusive privileges, immunities, or franchises whatever." Cf., Tukey v. Douglas County, 133 Neb. 732, 277 N. W. 57.

The distinction between the provision for a refund, as proposed in this bill, and the provision for a refund of a tax laid upon the sale of gasoline, which is provided for in section 66-451, R. R. S. 1943, relating to gasoline used solely for agricultural purposes, consists in this: The tax is to be refunded in the latter case because the tax is not intentionally levied upon sales of fuel which is to be *used* for agricultural purposes, but rather upon all sales of fuel which is to be *used* for the purpose of operating motor vehicles upon the public highways. The distinction is made plain in Monamotor Oil Co. v. Johnson, 292 U. S. 86, 78 L. Ed. 1141, 54 S. Ct. 575, where the court said:

> "The statutes properly construed lay no tax whatever upon distributors, but make of them mere collectors from users of motor vehicle fuel, and refund the tax only to that class of users upon whom no excise is intended to be laid."

In L. B. 1, amended as proposed, the tax is intentionally to be laid upon every bushel of wheat grown in Nebraska and sold through commercial channels. Thus the bill, as the basis of levying an excise tax, makes a classification which turns on the disposition or use which the grower intends to, and does make of the wheat so grown. The provision for a refund, therefore, amounts to no more than a legislative command that any person shall be permitted to claim a privilege to recover the amount of the tax without any other reason or ground than that the tax is obnoxious. It is beyond the power of the Legislature so to provide, if it be assumed, as we do assume, that the bill, without the proposed amendment, levies a tax for a public purpose.

A tax exemption which the Legislature cannot grant directly cannot be accomplished indirectly. Cf., Steinacker v. Swanson, 131 Neb. 439, 268 N. W. 317, 51 Am. Jur. 509, sec. 504.

Very truly yours,

CLARENCE S. BECK
Attorney General

William T. Gleeson
Assistant Attorney General

MESSAGE FROM THE GOVERNOR

April 13, 1951

To the President, the Speaker,
and Members of the Legislature

Gentlemen:

During the early 1930's a program of relief to farmers and ranchers was administered in Nebraska by an unincorporated body known as the Nebraska Emergency Relief Administration. Later on it was felt this work should be carried on through loans rather than in the form of direct relief. The Nebraska Rural Rehabilitation Corporation was then organized and was given grants of federal funds to make loans to farmers for rehabilitation purposes.

This work was taken over in 1935 by the Resettlement Administration set up by the federal government. At that time, the Nebraska Rural Rehabilitation Corporation transferred all its assets in trust to the United States government. This trust agreement provided, in part, as follows:

(1) The property transferred was to be used for rehabilitation purposes within the State of Nebraska.

(2) That in the event the authority of the Secretary of Agriculture or his successor to administer the fund should cease, the remaining property should be transferred to the Nebraska Rural Rehabilitation Corporation or to such other agency as might be designated by the Nebraska legislature.

After making this transfer, the Nebraska Rehabilitation Corporation was dissolved. The trust funds so transferred have since that time been administered under a delegation of authority successively by the Resettlement Administration, by Farm Security Administration, and at present by the Farmers Home Administration, which is a federal administration operating under the United States Department of Agriculture. The net amount remaining in the fund at this time is $2,325,000.00.

On May 3, 1950, Congress passed Public Law 499, which provides among other things for the liquidation of the trust funds and that upon appropriate application therefor the return of the assets should be made to each state rehabilitation corporation, or, if the corporation has been dissolved, as is the case in Nebraska, to such agency or state official as may be designated by the state legislature.

It has been suggested that the Nebraska legislature designate an officer, such as the Director of the Department of Agriculture or the Tax Commissioner, to whom the remaining trust funds should be turned, and that he be authorized to enter into agreements with the Secretary of Agriculture of the United States to use these funds to carry out the purposes of the Bankhead-Jones Farm Tenant Act.

This act was passed in 1937 to help tenants, share croppers, and farm laborers own farms by making long term loans. In 1946 Congress enlarged the act to help owners whose farms were too small or not sufficiently developed to provide a good living. War veterans are given a preference in loans. Operating loans are also made to purchase livestock, fertilizer, and to assist in soil reclamation work. In order to be eligible for a loan of this type it must be established that the applicant cannot obtain needed credit from any established source in his community at reasonable rates and terms.

This type of loan is now being made in Nebraska by the Farm Home Administration which, as stated before, is an agency of the United States Department of Agriculture. At the present time this agency claims to have 600 completed applications for loans to Nebraska citizens and is desirous of using the remaining trust funds of the dissolved Nebraska Rural Rehabilitation Corporation for this purpose. The Nebraska branch of this agency is located in Lincoln in the building occupied by the Sears Roebuck store.

Public Law 499 also provides that in the event of a disclaimer or release of interest in the trust funds by the Legislature or upon the expiration of three years from May 3, 1950, the funds shall be turned over to the federal treasury if the legislature does not designate someone to accept the funds.

It is my opinion that it would be well for the legislature to refer this to an appropriate committee or appoint a special committee to check into the 600 applications and loans on file with the Farmers Home Administration, and if the members feel the money would be put to good use, to pass the suggested legislation to turn the remaining trust funds over to a state officer of your choice and to authorize him to make the agreement suggested for the funds to be used in making loans by the Farm Home Administration. If the committee does not feel that this should be done, it may be well for the legislature to pass a resolution disclaiming any interest in the trust funds and permit the money to pass to the United States Treasury.

My file on this matter will be put at the disposal of the committee, and I am certain the federal officials in charge will be glad to cooperate fully.

Respectfully submitted,

(Signed) Val Peterson
Governor of Nebraska

RESOLUTION

LEGISLATIVE RESOLUTION 12. Re: Research by United States Department of Agriculture

with reference to better use
and conservation of the soil
in the wheat producing areas
of western Nebraska.

Introduced by William Hern of Dawes, C. C. Lillibridge of Fillmore and Richard D. Marvel of Adams.

WHEREAS, there are agricultural areas in western Nebraska which have problems peculiar only to their own areas relative to the production of crops and conservation of agricultural lands;

WHEREAS, the production and adjustment program of the United States Department of Agriculture has not been adequate in encouraging the desired use and conservation of crop land in the specialized wheat producing "problem" areas of western Nebraska because of large areas of summer fallowed land not being permitted to be planted to wheat in the fall of the year causing barren land to be subjected to wind and water erosion during the rigorous winter;

WHEREAS, land must be summer fallowed in these "problem" areas to cope with drought, and wheat is the only crop which can be planted on summer fallowed land and withstand the cold winters and conserve the soil, excepting rye which if planted volunteers and reduces the milling quality of the priority crop, wheat, in later years;

WHEREAS, there has been considerable loss of top soil by wind and water erosoin during the past fifteen years when adjustment programs were intermittently enforced; and

WHEREAS, there is a definite need for conservation of the highly productive soil in western Nebraska because of an increasing growth in the population of the United States which will require increasing quantities of food in the future.

NOW, THEREFORE, BE IT RESOLVED BY THE SIXTY-SECOND SESSION OF THE NEBRASKA STATE LEGISLATURE:

1. That the United States Department of Agriculture give greater consideration to the specialized wheat producing "problem" areas of western Nebraska in designing and administering agricultural production and adjustment programs in order to give greater encouragement to better use and conservation of the soil.

2. That a research study be made by the United States Department of Agriculture and the Nebraska College of Agriculture in cooperation with farmers in western Nebraska to determine additional practices which may be used by farmers to conserve the soil during years when wheat surpluses arise; and that research efforts be directed toward developing methods of handling surplus problems that will encourage better land use than is possible with existing adjustment programs.

3. That copies of this resolution, suitably engrossed, be transmitted by the Clerk of the Legislature to the United States Secretary of Agriculture, and to each member of the Congress of the United States from Nebraska.

MESSAGE FROM THE GOVERNOR

May 1, 1951

To the President, the Speaker,
and Members of the Legislature

Gentlemen:

Some questions have arisen with respect to the time when certain of the salary adjustments which you have made will become effective. Your adjustments were made to meet the continuously rising costs of living and to offset to some extent the inflationary pressures which are bearing upon the state employees involved. Your actions, I think, were in keeping with the requirements of good government and were conservative in nature.

In order that I may have an opportunity to adjust the salaries of the Code Department Heads, should the salary increases you voted not be effective during their present terms, and in order that I may be able to keep qualified individuals at the head of these important state functions, I respectfully request serious consideration and passage of a bill creating a State Board of Administrative Policy and Personnel. This board would be composed of the Director of the Department of Agriculture and Inspection, the Director of the Department of Banking, the Director of the Department of Health, the Director of the Department of Insurance, the Commissioner of Labor, the State Engineer, and the Tax Commissioner. It would meet in the office of the Governor each Monday at 10:00 a.m. and at such other times as would be necessary to counsel and advise the Governor and make recommendations to him with respect to general policies to be followed in the civil administrative departments of the state government. The duties of the board as set forth in the bill are as follows:

1. To coordinate the policies and programs of the several civil administrative departments;

2. To avoid conflicts of jurisdiction between the several departments;

3. To eliminate unnecessary duplication of work and overlapping of functions of the several departments;

4. To promote uniformity in departmental regulations;

5. To prevent overstaffing of the several departments;

6. To aid in the preparation of a budget for the several departments that is based upon comparable pay for comparable positions;

7. To adopt and establish a plan of classification and compensation for each position and type of employment;

8. To prescribe necessary salary schedules, fixing a minimum and a maximum salary for each class of employees doing the same general work;

9. To make such regulations for and adopt such methods of qualifying employees for positions as will provide competent and efficient assistance; and

10. To provide rules governing personnel administration, which shall include rules regulating appointments, promotions, demotions, transfers, separations, vacations, and sick leave.

The formation and operation of such a board should help lead to more efficient and economical administration of the civil administrative code departments and, further, should function with respect to those personnel activities which were eliminated with the discontinuance of the State Merit Council.

Under the terms of the bill, the board will expire on March 1, 1953, unless the incoming Legislature should deem it wise to continue it, and it is understood that the Governor would provide compensation for the duties performed by the board members only where the adjustments voted by this current Legislature do not become effective during the current terms of the members.

The Governor simply will not be able to hold certain Code Heads in their positions unless he is in a position to make some salary adjustments in the months that lie ahead. Certainly, it is not sound to expect these men to continue to serve without salary adjustments in keeping with current conditions. The Legislature recognized that by enactment of the salary adjustments, and the purpose of this bill is to make some adjustment immediately should those voted by the Legislature not be effective.

This bill is being introduced by the unanimous vote of the members of the Miscellaneous Appropriations Committee at the request of the Governor, and represents the considered judgment of the committee and the Governor that this is the best way to meet this emergency situation.

Respectfully submitted,

(Signed) Val Peterson

REPORT OF SPECIAL INVESTIGATING COMMITTEE

Mr. President and Members of the Legislature:-

On February 19, 1951, in pursuance of a motion adopted by the Legislature, its President appointed a committee for the purpose of investigating (1) the wholesale liquor distributors of the state; (2) the legislative lobby of these distributors; (3) the Nebraska Liquor Commission; and (4) all lobbies as now registered with the Nebraska Secretary of State.

After full consideration and study of all the testimony which was presented to this Committee, it was the consensus of opinion that it consisted of nothing but rumors and hearsay, and not based on any facts which could be proven and that would warrant any further action by this Committee. Also, much of the testimony that was given consisted of information that is now and always has been of public record in the office of the Liquor Commission.

Your Committee held ten meetings and hearings and heard testimony from the following persons:- Edward Trask, Bill Billotte, Tom Allan, Dr. Ziegenbein, M. L. Poteet, Richard E. Brega, Axel A. Gilstad, Mrs. Axel A. Gilstad, Blaine Young, Frank B. Morrison, A. A. Misegadis, W. E. Christensen, James Potach, Charles W. Hammond, Charles Hoye, Rex Olson, Paul Blotcky, Rev. Walter E. Rowoldt, and Charles H. Bressler. A complete transcript of the hearings is on file in the office of the Clerk of the Legislature.

It is evident that the apparently accepted local practice in the matter of lobbying is frequently not in accord with the laws of the state, and that these laws have never been revised since 1945. They differ considerably from those in effect in many other states, and the indications are that they should be revised. The Committee would recommend that the subject be considered at the next session of the Legislature.

The public had full knowledge of the activities of this Committee and the dates of our hearings. No one appeared with any criticism or charges against the activities of any of the registered lobbyists. However, the Committee did listen to three lobbyists, and apparently their reports were in accordance with forms provided by the state.

In view of the limited time and the limited hours, and lack of power, that your Committee had opportunity to spend to hear testimony, we feel that we have covered the subject thoroughly and gave everyone who had any knowledge of any wrongdoing an opportunity to appear; therefore we, the Committee, ask to be dismissed. (Signed) Ray Babcock, William Hern, Richard D. Marvel, H. G. Wellensiek, O. H. Person, Ed F. Lusienski, Karl E. Vogel.

OPINION OF THE ATTORNEY GENERAL

May 18, 1951

Honorable George Syas
State Senator
Senate Chamber

Dear Senator:

You have referred us to the following quoted words in the amendments to L. B. 2 now under consideration:

"No member of the commission shall be interested, either directly or indirectly in any contract, with the State of Nebraska, or with any county or municipality thereof, during the term of his office or within two years after the expiration of such term of office; *nor shall any member have any interest during his term of office or within two years after the expiration of such term of office, either directly or indirectly, with the loaning of any money to, or the borrowing of any money from any person, firm or corporation, which has any interest, either directly or indirectly, in any contract with the State of Nebraska, or with any county or municipality thereof.*", and you have asked us first whether such limitation is within the power of the legislature to impose. Second, can the legislature properly control the activities of its applicant two years after a membership on the board has expired. Third, whether the underlined words hereof would not unduly limit the number of persons who would be available for service upon the Nebraska Highway Commission.

We answer the first question by stating that the creation of the position and the statement of the qualifications therefor are purely legislative matters and represent a proper exercise of the legislative authority.

In answer to your second question we believe that the acceptance of the office by any appointee would amount to an agreement and contract upon his part to adhere to the terms and provisions of the law stating his qualifications, and that he would be obligated to remain free from the forbidden contractual relationships for the period mentioned in the bill. Our examination of the bill, however, does not reveal any penalty clause which would punish him for a failure to remain free from such forbidden contracts and the state would need to obtain an injunction against any such conduct to enforce this provision.

It is difficult for this office to reply to your third inquiry without a clear definition of terms contained in the question. To say that the underlined words *unduly* limit the number of persons available for the position would probably amount to a conclusion on our part agreeable to your conclusion that the words used restrict the selection of members beyond that number which could be eligible under a law giving ample protection from graft, or personal interest. In view of the developments in investigations at this legislature, we assume that the framers of this bill wanted to make doubly certain that no pecuniary interest *of any sort* should be present to tempt or urge a highway commissioner to exercise his judgment in any manner other than one calculated to preserve the best interests of the State and its highway program without knowing whether in fact this restriction goes farther than the legislature meant for it to go, or whether it merely does exactly what the framers of the bill desire the legislature to enact. We are not able to answer in a categorical manner that the bill does or does not *unduly* restrict the number of applicants.

We will state, however, that the phrasing of the underlined words above is such that in the actual operation of the legislation it would preclude from membership on the commission any man who (or whose companies or enterprises) was indebted by reason of a loan to any bank in the state, which bank was also acting as a state, county or municipal depository, or which would become such depository during his term of office. We are not prepared to say at this time, in view of the brief space of time, whether or not this would preclude the prospective member from having money on deposit in any bank which was lending money to persons contracting with the state, but our recent research indicates that the cases would easily hold that he could not be a stockholder in a bank or other company lending money to any person who might be selling food products to the Board of Control, or text books to some other branch of the state.

Since the wording of the bill clearly provides for this protection, we feel that it would be improper for this office to state whether we agree that the field of applicants is unduly limited thereby, for such is a legislative matter.

Very truly yours,

CLARENCE S. BECK
Attorney General

REPORT OF COMMITTEE ON RULES

The Committee on Rules, after considering at length some of the problems of legislative policy and procedure which have arisen frequently in recent sessions, submits herewith the following recommendations:

1. That sub-section (4) of 49-702 R. S. 1943-1949 Cum. Supp. be repealed. (This sub-section provides that it shall be the duty of the Revisor of Statutes "to aid and assist the bill drafting service established by the Legislative Council in drafting legislation.")

The committee further recommends that the Rules of the Legislature be changed as follows:

1. Amend Rule 5, Section 2 by adding after the word "thereof" on Page 8, "no member of the Committee on Committees who was elected under Section 1 of Rule 5 shall serve as chairman of any committee established hereunder."

2. Amend Rule 5, Section 5 by striking all matter after the word "review on Line 7. (The stricken matter reads "The bill drafting service shall have supervision of legal work performed for the Enrollment and Review Committee.")
